

European Astra™ + Veros™ Tech Workshop

🕒 09:00 – 16:00

📅 Copenhagen, Denmark – 1 Sept. 2025
Stockholm, Sweden – 2 Sept. 2025

Technical Agenda Includes:

Interactive Demos: Edge-AI-powered Voice Assistant, Privacy Sensor, IoT, User-Voice-ID demos running locally on Astra, our AI-enabled processors.

Integrating AI at the Edge: Smart Assistant, Object Detection, Facial Recognition, SLM, and more.

Live Code Lab: Deploy your own model to an Astra-powered dev board (optional for in-person)

Why Attend?

- Dive into real-world use cases of the Synaptics Astra and Veros platforms
- Learn how to accelerate and optimize your design cycle using Astra SDK and Edge AI tools (Synap Toolkit)
- Learn how IoT is evolving: Wi-Fi Sensing, HADM, Matter over WiFi/Bluetooth/Thread—ultra-fast Wi-Fi 6/6E/7/8, GNSS, Bluetooth Classic/LE

Participation Perks

- Participation at Synaptics Astra + Veros Tech Workshop is free
- A special price for the Astra board is available to participants
- Enjoy a complimentary lunch, refreshments, and pick up some cool swag

Seats are limited to ensure a hands-on experience.
Please RSVP to your preferred location.
