# RISK DISCLAIMER FOR CRYPTOS OTC

The information provided to you in this document and any associated presentation should at all times be considered general information about Cryptos OTC.

Under no circumstances should this be considered as any type of solicitation, investment or financial advice.

Past performance is not indicative of future results.

Before deciding to invest in Cryptos OTC you should carefully consider your investment objectives, level of experience and risk appetite.

You need to evaluate the risks inherent to participating on your own behalf.

We suggest you seek the advice of a suitably qualified professional who can help you to take the relevant decisions after evaluating your personal and financial situation. Your continued reading of this document indicates your acceptance of the above terms.

# WELCOME

Historically reserved for the high rollers and hedge funds, COTPS have adapted their previous platform known as Cryptos OTC to COTPS and made it accessible to the mum and dad investor.

COTP exchange is providing intelligent high-frequency transaction services to users all over the world. In the high-frequency transaction mode of COTP, no matter whether the market is bull market or bear market, whether there are large market fluctuations or stable market, as long as there is a matching transaction, there must be a price difference, so that the small interest difference between purchase and sale orders in milliseconds will be collected and processed by the high-frequency technology, ensuring the stable revenue for customers by its fast processing all day long.

As a model focusing on currency transaction and high-frequency transaction, COTP exchange has been deeply developing the high-frequency transaction of digital currency, it has built the first high-frequency transaction digital exchange in the world, and created a new wealth space for both users and investors in the globe. The core of COTP high-frequency transaction is to complete thousands of purchasing and selling transactions at a microsecond speed before the buyer and the seller carry out transactions. For individuals or institutions who want to obtain high benefits in the digital currency transaction market through high-frequency transaction, COTP high-frequency transaction mode is an example that can be referred to.

# Our PLATFORM

Based on high-frequency transactions, COTP exchange leads the reform of high-frequency transaction mode

## 24/7

The Crypto market operates 24 hours a day, 7 days a week, giving more trading opportunities.

## ORDER MATCHING

Our AI scans the market and matches you with the best orders in the market.

## SELL HIGH, BUY LOW

When you accept the sell offer you are securing a lower buy back price.

## LOW ENTRY

You can begin trading with as little as \$50 USDT.

## HIGH FREQUENCY

The COTPS platform give us opportunities to place orders every 2 hours.

## FAST WITHDRAW

Your cash into your digital wallet within minutes.

# COTPS COMPANY PROFILE

COTP is a blockchain OTC and cryptocurrency exchange platform.

We are committed to improving the liquidity of blockchain assets and allowing more people to enter the blockchain industry.

We provide users with a more free and safer trading environment, use AI intelligent algorithms to match users with the best orders, and continue to bring you benefits.

We focus on building an efficient cryptocurrency exchange platform, and establish cooperation with 3000+ OTC traders around the world.

It is currently the world's largest OTC exchange.

# TECHNOLOGY

Our encrypted transaction system uses a secured transaction mechanism, combined with unique point-to-point transmission technology, real-time clearing engine, smart digital wallet, extremely high network security system, cross-exchange optimal price exchange engine and other blockchain technologies. The AI intelligent algorithm is used to automatically allocate the best order for you. You can automatically complete all operations such as digital currency delivery and two-way acceptance by simply operating authorization. The platform guarantees the transaction for you to ensure the safety of your funds. The real-time clearing engine system will complete all settlements within a few hours, and automatically settle your income and principal to your account.

## SERVICE

When it comes to any risks of cryptocurrency trading through an exchange, COTP ensures the highest form of security. We also provide instant customer service support for any problems that users have during transactions.

## KYC

Our platform uses KYC ID verification to verify user identity. This verification is done by Jumio Netverify technology to reduce the possibility of fraud and money laundering. It is similar to those used by global cryptocurrency exchange platforms such as bittrex, local bitcoins and cryptopay.

COTP does not store user information received from Jumio in order to comply with data confidentiality. The system is responsible for automatically verifying identity.

## WALLET

We worked with top development consultants to create a structured wallet that allows individuals to store their assets in hot, warm, and cold wallets at the same time. This not only improves the security of your funds, but also creates liquidity for transaction efficiency.

## INSTANT CUSTOMER SERVICE

COTP has established its influence by using software to allow customer service representatives to respond to queries within 5-15 minutes. Its goal is to solve any problems encountered by customers within 24 hours. Ordinary exchanges often respond within 3-5 working days.

## U.S DIGITAL ASSET REGULATORY LICENSE - MSB

The US MSB (Money Services Business) license is a financial license supervised and issued by FinCEN (the Financial Crime Enforcement Bureau, an agency under the U.S. Department of the Treasury).

It is a license for businesses and companies engaging in financial services.

Companies engaged in related businesses must apply for an MSB license in order to legally engage in digital asset management and transactions.

# Frequently Asked Questions

## WHAT IS DIGITAL CURRENCY?

Digital currency is an alternative currency in the form of electronic money. Also known as cryptocurrency. In theory, bureaucratic approval is avoided. For example, Bitcoin, Litecoin and USDT rely on checksum cryptography to create, issue and circulate electronic money. It is characterized by the use of P2P peer-to-peer network technology to issue and manage currency in circulation.

## WHY USE USDT AS A PAYMENT CURRENCY?

USDT is a decentralized digital currency linked to the U.S. dollar. USDT strictly abides by the 1:1 reserve guarantee, that is, every USDT is endorsed by one U.S. dollar fund, so it creates the stability of USDT relative to other digital currencies, and it has also become a digital currency. Anchor currency.

## DO I NEED TO KNOW HOW TO TRADE?

No, the benefit of this AI System is that it is scanning for the transactions and creating the best order for you.

## WHAT IS OTC?

OTC is the abbreviation of Over-the-Counter. To put it more simply, the service provided by OTC is similar to the cryptocurrency eBay.

Using the COTPS platform, individuals from different countries can directly complete cryptocurrency transactions. Buyers can choose suitable sellers to complete transactions directly online according to their needs. As a supervisor between traders, COTPS uses strict KYC procedures and a fair scoring system to ensure a safe and convenient trading environment.

## WHAT PROFIT CAN I EXPECT?

Results can vary however in a typical cycle (every 2 hours) our users see approximately 0.3% profit.

## CAN I AUTOMATE THE BUTTON PUSHING?

Some users have created their own automation systems. Speak to whoever shared this document with you and ask if they're linked up with automation. These systems aren't affiliated with COTP, they are third party agreements..
