? Does anyone know if there's a way to recover my old PC from a backup I did 3 years ago? It's an old PC I am no longer using, with a terrible hard drive (will not mount, Acer L1310) and Windows 7 license, which I don't have. Backup was done with Acronis True Image, with serial key and registration code. When I boot into Windows, I'm greeted by a message that says my license for Windows 7 is invalid. The license never expired, and is now 3 years old. I need to retrieve this backup, so I can restore it to a different hard drive. Does anyone know if there's a way to recover my data? I know how to use the Recovery Console, but not the methods presented there. A: If the backup was created with the True Image 9 program (and you've verified that you have the same serial number, license number, and activation code as you did when you made the backup), you can simply do a Restore. If you've since lost the serial number or activation code, this is where you need to get a new one. There's no way to get the backup itself back, so you can't just use an older version of True Image to replace what's on the hard drive, and you can't just run a filesystem recovery tool. The only way is to do a restore. New Jersey's ban on gay conversion therapy, which was enacted in 2015, was challenged in the Supreme Court on Wednesday, and the first three cases have been argued. The New Jersey Supreme Court has struck down a 2015 state law that banned the use of "conversion therapy" on minors in the state, as well as a law banning the use of conversion therapy on anyone under the age of 18. According to a statement from the New Jersey Attorney General's Office, the lawsuit was filed on behalf of New Jersey's Human Rights Commission in 2015, and it was appealed by the Republican-led New Jersey State Legislature in 2017. New Jersey Supreme Court Chief Justice Stuart Rabner spoke about the case before the Justices. "I am very familiar with the subject of conversion therapy. I watched, as a teenager, the therapists in this field tiptoe around me to avoid a response to my remarks," said Rabner. "They were unable to silence me. I felt 520fdb1ae7
