Tasty planet forever game free

Oh, no, the world is in danger! A great disaster is about to come: huge animals are trying to destroy the planet. They are very hungry and can't stop eating city by city, until they swallow the whole universe. Their hunger is eternal and they do not seem to stop. Maybe they will eat the whole cosmos and other galaxies, who knows! It looks really dangerous. And the reason for this danger is no one but you! Discovering the world around is a pretty interesting activity, but eating everything in it is even better. You will try to swallow people, parks, automobiles, and even houses to grow and eat more. Can you grow up big enough to eat the whole planet? We bet you can! Tasty Planet Forever is a crazy title that you'll love totally. If you've ever played any other mobile clicker game Beetles.io, then the gameplay will be clear at first glance. However, even if you've never played the game like this before, you'll easily master the mechanics because it's done in a simple and intuitive way. Just click on the objects and that's it. From the beginning of the story, you play as a red Frenchman. He is always hungry, like any other cat. The main thing that makes it different from others is that it can literally eat anything and can grow as big as an elephant. This cat is looking cute and funny, but later there will be more characters to try. You start in the kitchen and your goal is to swallow all the food you can find there. From traditional cat food like mice, you can move on to something more delicious like baguettes and wine. Each new meal makes you bigger and bigger, allowing you to eat bigger items, including city dwellers and their vehicles. Always remember that you can only eat things and creatures that are smaller than you are. Move around the city and discover new places: there's so much you haven't eaten yet. By the way, there is a multiplayer version of the game, so you can invite your friend to enjoy the whole adventure. You will unlock new places and species to see the worlds and those who live there (and eat them). There are a number of different universes and characters to choose from. For example, you can play as a single-celled organism, trying to defeat your competitors, survive and evolve. There is also a mouse, a shark, an octopus, and even a bee that can become big enough to eat a truck. Can you imagine anything like that? Well, we were betting that playing Tasty Planet for all the characters available and Everyone possible created by game developers is an incredible activity for those who are looking for a perfect way to kill the time when they feel bored. Eating and ruining is so much fun! But know that not only will you encounter objects that are edible to you. Also, there will be many obstacles and difficulties on your way, so don't rush ruin everything you see. Sometimes objects that are bigger than you can be harmful and you will need to run away from them as fast as you can. If you don't, they'll attack you and you may end up with a game over. So be careful! Still, the other items are ready to make a list of your menu, so feel free to swallow anything smaller than you. If you want to eat something bigger, just wait a while: you will get there when you are big enough. Can you prove that your eternal appetite is a real challenge for the city and even for the entire planet? Are you going to show the world that Godzilla in Tokyo was just a rinki-dink, compared to you? If so, then you can play this fascinating game on our website and enjoy it for free! The game Tasty Planet Forever is an arcade where you play for a cat who wants to eat the city. You start with traditional cat meals, like mice and rats, and then move something much more interesting like houses and trees. It is your mission to grow and eat larger object to grow even more. Who knows, how big you can become! However, you are not almighty, so try to avoid things and characters that are larger than you. They are dangerous and can damage you. There's no need to hurry: eat something that suits your current size and get back to bigger things when you grow up, too. Tasty Planet Forever is a very simple but absolutely addictive title. The gameplay is basic, you just point the objects and click on them to eat. The graphics are bright and simple, so it's a real pleasure and leisure for both your eyes and mind. Check out the gallery of screenshots and images for this game and see how many amazing places and characters await you. There are so many details to discover in the crazy world where cats and bees can become so big that they can swallow the Earth! By the way, there are many worlds to discover and different characters to play for, so check them all out! What if you give cats a rubber stomach and a free run? A real apocalypse will not be long to come. For example, a red man who lives in a Paris kitchen realized like a Catzilla one day. It started with sandwiches and mice, but ended up ... planet Earth. Are you already afraid of such a prospect? It's good, this kitty, it's you. Relax and destroy. By the way, there are other scenarios in this game. More creatures like sharks, dingoes, octopus, even dark holes also have a hearty appetite, too. Try to play for each of these monsters and see them grow tremendously. Due to the fact that the number of characters is impressive and so is the number of levels (about 150 of them), you will never get bored with Tasty Planet Forever. Yes, you won't be involved in any activities other than eating, but believe us, the number of bright and absolutely crazy crazy characters, and places will impress you for sure. The graphics of Tasty Planet Forever may be a bit sketchy, but you will see that the game is created with care and warm heart. The design may seem a bit childish, but the details that have been drawn with great attention will surely have a corner at the heart of every mobile game fan.
