Asphalt 7: Heat - Driving a race for Android from Gameloft, which gave us hits such as Gangstar Vegas Despicable me. The seventh edition stands out from its predecessors and other racing games excellent graphics and you have a huge fleet of cars popular brands. The gameplay in the new version is more interesting and diverse. All the routes are scattered in fifteen cities, and each of them is completely unlike any other. During the race, the weather conditions often change, which gives the game a dose of realism. Asphalt 7: Heat There are several modes, including Career and Multiplayer have the most interest. In the first mode, the user will have to go the hard way from an amateur rider to a real pro. Developers have created about 150 tests and 15 tournaments for which performance is calculated in the game currency. With the money earned, you can buy new cars and all sorts of improvements to them. Fans of online battles have got to appreciate the multiplayer mode where you can compete with players from all over the world. There is another fast race mode where the user can choose the best car and the desired track, and just enjoy the game. In this race there are four control options: gyroscope, steering wheel and pedals, touch buttons and combos. The visual part of the game is satisfactory, as it is improved to the smallest detail. Fans ride to great music will enjoy new soundtracks. Asphalt 7: Heat is a worthy extension of the iconic arcade racing game. Updated graphics, a lot of great tracks and a well-designed storyline will please not only devoted fans of the series and new players who are just beginning to be interested in this genre. Page 2 Asphalt 8: Airborne continues the famous series of games on Android. In the new part of the gamer is waiting for the redesigned physics, delayed graphics and the opportunity to participate in online races. The last game gained a well-deserved popularity thanks to excellent gameplay, high-quality graphics and wonderful music. In the eighth part of these components, brought to a fundamentally new level, they became even better. However, there are also negative moments, but about them later. Now in the application there are various jumps, which gives the rider the opportunity to perform tricks in flight. So, before takeoff, you can begin to turn around, as a result of which the car will turn into the air. On curved jumps the car will make a barrel. As you can see, in Asphalt 8: Airborne developers have thoroughly gone from realism. Control has not changed as before, you have the right to choose keys, accelerometer, steering wheel display and some other control options. Cars in the app are licensed, there are almost all the most common racing cars. The game is happy with its interactivity - your cars can break. Based on nine seats, more than fifty created that become larger and add more branches. Now we mention two main drawbacks. First, the imbalance of the eponymous campaign. In the last part of the game could be handled without additional purchases, now it is extremely difficult to do. Opponents have more powerful engines and drive much faster. Developers clearly push the gamer to either donate or score points in multiplayer races. The second negative feature is poor optimization. Even on the upper devices, the app slows down noticeably, showing low FPS. However, the last flaw has been fixed with the release of many updates. However, Asphalt 8: Airborne proved to be a worthy continuation of the famous game series. Asphalt 7 thermal mod apk data download, asphalt 7 thermal mod (unlimited money / stars) v1.0.6 apk, asphalt 7 thermal mod apk Android 1 unlimited money, asphalt 7 thermal mod apk free download revdl, Asphalt 7: Heat - enjoy new races on Android from Gameloft, which has released a new asphalt seventh series. Compete on new routes in different cities around the world, and admire even more new cars. Click on the gas pedal all the way so that the speed of the engine was at maximum, the smoke and smell of scorched rubber flew out from under the wheels and you are sure to come to the finish line first! Earn money and get stars for every victory in the race. In Asphalt 7 on Android stars are given to perform tasks: reach the maximum speed, go to the accident no more than 4 times and others. To get the most money and points, open the next level and new cars, perform various feints on the road: enter the turns with a snowdrift, knock opponents off the track and come out on top with the maximum margin. You are invited to pass about 150 competitions, take part in 15 leagues and all this on 15 unique tracks. A variety of game modes, of which there are six in the game. Naturally, there is a multiplayer mode for fans to measure driving skills and show their stuffed car! Cars are to be modified, can be improved: engine power, stabilizers, body strength, etc. In your garage Asphalt 7 Heat will be a lot of sports cars, from cheap more like city cars to expensive top cars, such as: Ferrari, Aston Martin, Lamborghini, Ford, Audi, BMW and others. v1.1.2h Original.
