in this scope #include ^ Error: Execution failed with error code 255 A: The issue is you're missing the "EXTERNAL_PREFIX"
macro. Try adding the following code in the beginning of your example3.cpp file. #define EXTERNAL_PREFIX Rcpp:: Note
the semicolon before the #define statement. Alternatively you can also define the macro before including RcppArmadillo (from
within your R code). For 520fdb1ae7
