## Venn diagram of life cycle

View and share this diagram and more on your device or Sign up from your computer to use this template `&lt;script type=`text/javascript src= amp:gt;&lt;/script&gt;&#xD; &lt;div id=container-gjhq7zrp1&gt;&lt;/div&gt;&#xD; &lt;script type=text/javascript&gt;&#xD; var player = new CreatelyPlayer( container-gjhq7zrp1, gjhq7zrp1, {width: 100%, height: 100%, backgroundColor: #ffffff} );&#xD; &lt;/script&gt;In groups 2-4, create a Venn diagram to compare the frog's life cycle and human life cycle. You should have at least 5 facts for each area of the diagram: frog life cycle, human life cycle, both. Use facts that have already been collected and sources that have been used for other activities. Use the books available in the classroom library. Here are some other resources to help you find information about the frog's life cycle and human life cycle: may draw your Venn Diagram on a piece of paper. This should look like this: Alesia2020-10-05T15:50:26-04:00 Frog Reading PassageGallery1st Grade, Reading, Science. Students learn about frog. Where does the frog live? What do they eat? What does it look like? In this pack, you'll find a series of Venn diagrams to help students compare and compare different groups of animals. Animal groups include comparison and contrasting: -insects vs spiders -mammals vs people -birds vs fish -Reptiles vs ampues Each Venn diagram contains a picture of an animal that students will compare and contrast.
