Monday, November 29 (B) log in to your student portal, and check out all completed assignments. Make sure all MoneySKILL modules (9, 10, 11, 12, 13, 14 and 15) have been placed within six weeks... Make a note about the warm-up lesson when completing any of the modules above to secure full credit... MoneySKILL Pop quiz (Right click HERE, and save the link as...) Make sure to complete the tasks of the previous day (Monday, November 22) Not that time, read the whole question and all the answers carefully do your job!!! Monday, November 22 (B) Enter your student portal, and check out all completed assignments. Make sure all MoneySKILL modules (9, 10, 11, 12, 13, 14 and 15) have been placed within six weeks... Make a note about the warm-up lesson when completing any of the modules above to secure full credit... The following modules will be read into the EXAM class... NOTE: You will not be allowed to retake the module!!! Make sure you read the modules slowly and carefully... The Cost of Buying or Leasing Vehicle (Module 16) This is the first of two modules discussed the cost of transportation. As we shall see, transportation in the United States is primarily related to the car, so the bulk of these two modules will focus on the cost of buying or renting a vehicle and on the operating costs of that vehicle once you own it. He then goes on to two of the most common ways of obtaining a vehicle - buying it on installments and leasing it. In this module we learn the following: Why Americans are so reliant on their vehicles The difference between fixed vehicle costs and its variable or operating costs The main difference between buying and leasing a vehicle Is calculating monthly payments for vehicle purchase Monthly vehicle rental payments As you can haggle over both the best vehicle price and the best financing transaction to enter into your account MoneySKILL.org (Right click here, and open the link in the new tab ...) Launch - Full Module 16 (8 issues) - Purchase or leasing vehicle (EXAM Grade...) BONUS SIS-KUI (Right click here and open the link in the new tab ...) Thursday, November 18 (B) The following modules will be read out as an EXAM class... NOTE: You will not be allowed to retake the module!!! Make sure you read the modules slowly and carefully... Home Rental Costs (Module 13) Once you live on your own, you will find that the cost of housing is likely to be your biggest cost, which is a third or more of your total expenses. In this And next, we'll explore some of the costs that you can anticipate when you rent a house (house or apartment) and when you buy a house. This module focuses on renting a home. It starts by examining the rent versus the decision to buy, giving a giving benefits of homeownership and contrasting them with the benefits of renting a home. It then goes into some of the features of renting a home, including signing a lease and spending on utilities, repairs, maintenance and tenant insurance. In this module, you'll learn the following: Share the total cost of housing for all people and those under 25 Benefits of Home Ownership Benefits of renting a home, especially for young people How to understand the lease or rental housing costs of renting, except for the monthly rental payment Entry to your account MoneySKILL.org (Right click here, and open a link in the new tab ...) Running - Full Module 13 (11 issues) - Home Rental (EXAM) related to home ownership (module 14) As we saw in the previous module, most adults start with renting a home and then tend to buy their first home, often between the ages of 20 and 30. In this module we will talk about how homes are financed and the total cost of homeownership. We'll also talk about the types of homes you can own, including single-family homes, condominiums and co-ops. In this module you'll learn the following: How and Why People Finance Their Home With a Mortgage How to Calculate the Monthly Mortgage Payment Difference Between Fixed Rate and Adjustable Mortgage Implicit Interest Cost Equity You Put in Property Tax, which is paid on home Other costs of owning a home, including maintenance and repair, insurance and utilities Total home ownership of condominiums and co-ops to enter your account MoneySKILL.org, and open the link in the new tab ...) Running - Full Module 14 (8 issues) - Home Ownership (EXAM Grade...) Spending on Food and Clothing (Module 15) In Module 4 of this unit, we found that young Americans spend as much on food and clothing as they do on transportation, about 21.6 percent of their income. In this module we learn the following: The cost of food largely depends on the level of preparation Compromise between the cost of our time and the cost of cooked food As the cost of clothing varies depending on our age, climate and gender How states differ in the sales tax levied on food and clothing Why the sales tax on essential items is considered regressive As sales tax is collected (or not collected) for online purchases. your MoneySKILL.org account (Right click here and open the link in the new tab...) Launch - Full Module 15 (8 questions) - Food and Clothing (EXAM Grade...) Tuesday, November 16 (B) The following modules will be considered exam class... NOTE: You will not be allowed to retake the module!!! Make sure you read the modules slowly and carefully... Paying the cost of what we buy 11)OBJECTIVES Previous module showed us how to track the money we spend that we can better control or budget our spending in order to be able to save money to achieve our goals. In this module, we focus on how we pay for the things we buy. Payment arrangements include cash, checks, credit cards, debit cards and payment systems. In this module we learn the following: The pros and cons of paying our purchases in cash Benefits and disadvantages of writing cheques Benefits and disadvantages of using credit cards Using debit cards to pay for purchases using the bank account payment system to log in to your account MoneySKILL.org (Right click here, and open a link in a new tab ...) Running and full module 11 (6 questions) - Payment for something that we buy (EXAM Score ...) Expenses using the checking account (Module 12) In 2001, 87 percent of American families had a checking account, which means that if you don't have a checkbook yet, you will have one soon. Since checks are still the way we end up paying for most of the things we buy, it is important for us to know how to use our checking account the right way. In this module we learn the following: How to track our expenses with a statement about expenses How to avoid double counting in our expense report How to collect a revenue report How to collect a budget How to stay on track with our budget logging into your account MoneySKILL.org (Right click HERE, and open link in the new tab...) Launch - Full Module 12 (10 questions) - Using a checking account (EXAM...Grade), November 10 (B) MoneySKILL pop quiz (Right click HERE, and save the link as...) Make sure to complete the tasks of the previous day (Monday, November 8) Not that time, read the whole question and all the answers carefully do your job!!! Monday, November 8 (B) MoneySKILL.org Income Other deductions from payment (Module 9) In Module 7, we began to learn about deductions from our paychecks by studying federal income tax. In this module we learn about other payroll deductions including: state and local income taxes on Social Security deductions for health insurance deductions for life insurance deductions for retirement other deductions Entry into your account MoneySKILL.org (Right click HERE, and Open Link to New Tab ...) Launch and Full Module 9 (8 issues) - Other deductions from payment (EXAM Score...) Expenditure Tracking and Budgeting (Module 10)OBJECTIVES Introduction This module is about spending money. No, we're not going to teach you how to spend it. We think you have pretty good ideas about what you would like to buy. Rather, we will focus on figuring out what we are spending our money on so we can get more of what we really want. The module is divided into two parts. First shows us an easy way to track what we spend with an account statement and compare it to the money we make income statement. Once we know where the money is going, we are in a better position to take control of our spending by putting together a budget. The budget allows us to look at the money that will flow and divide it into what we want to do with the money. Without some kind of budget, it is almost impossible to get what we want, both now and in the future. In this module we learn the following: How to track our expenses with a statement about expenses How to avoid double counting in our expense report How to collect a budget How to stay on track with our budget logging into your account MoneySKILL.org (Right click here and open a link in the new tab...)
