Cleans Perfectly
Using Only Water

It cleans amazing because of the super dense proprietary nano-fiber weave. Every fiber is over 250X finer than a human hair and holds 8X its weight in soils, liquid and other substances.

The AquaCloth literally has millions of micro-chambers that scoop and pull dust and dirt inside the cloth where they remain until they are washed.

Windows, Mirrors, TV Screens, Mobile Phones, Computer Monitors, Eye Glasses Stainless Steel Granite and more.

DESIGNED FOR CLEANING:
AquaCloth™

NEW FOR 2018

masticlean.com | 800.418.1650
ADVANCED TECHNOLOGY
MastiClean is a revolutionary step forward in the cleaning market, in that our product is the first non-toxic, non-solvent based cleaning solution that can safely remove oils, greases of all types, including tough to clean asphalt roofing tars and sealants. Elastomeric sealants, tars, and coatings are used in many applications specifically in the construction industries, and they are commonly made from heavy petrochemical bases that are difficult to break down and remove from your skin, clothing, tools, and other non-porous surfaces. MastiClean is able to remove different substances quickly and effectively, without compromising the health and safety of the user.

MastiClean's next-generation green-cleaning technology truly outshines the competition in performance, safety, and sustainability. That's good news for workers — and great news for the environment.

Developed by:

MastiClean carries a 0-0-0-0 HMIS rating

HMIS RATING:
Health - 0   |  Flammability - 0  |  Reactivity - 0  |  PPE - None

The Winning Formula for Going Green when you Clean.

MastiClean's Eco-Friendly Formulas Available In:

- SOLVENTS & DEGREASERS
- MULTI-PURPOSE
- GLASS & SPECIALTY
- READY-TO-USE & CONCENTRATE

NATURALLY POWERFUL
The active ingredients that power our MastiClean formula are EPA and REACH approved and Determined Safe For The Environment (DfE). MastiClean has C-1 and E-4 certifications from the NSF which certifies products for safe use around the preparation and consumption of food.

SUSTAINABLE AND RENEWABLE
MastiClean features a patented plant-based formula containing eco-friendly surfactants, saponifers, and emulsifiers that allow MastiClean to quickly breakdown many long chain hydrocarbon structures so they can be safely removed.

INDUSTRIAL STRENGTH GREEN CLEANING.
We leveraged the latest science to create a whole new kind of cleaning product that outperforms the competition, is safe on skin and all surfaces, and has positive effects on environments big and small.
