The three stooges 2012 youtube

The Three Stooges is a comedy film based on the first TV series and films. Produced and directed by the Farrelly brothers, they also co-wrote the film with Mike Cerrone. Sean Hayes, Chris Diamantopoulos and Will Sasso recreate the characters played by Moe Howard, Curly Howard and Larry Fine. The story takes place in a modernized scenario. Ever since the guys were left outside the Sisters of Mercy Orphanage as babies, chaos has ensued. Most nuns are literally terrified, particularly Sister Mary-Mengele, who has always despised the trio. Out of sheer desperation, the exhausted nuns present the boys as the only children available to adopt in a visiting couple. They finally choose Moe, but when he insists that Curly and Larry join him, he is promptly taken back to the orphanage. About 25 years pass and the trio continues to live in the orphanage as adults, trying to help take care of the children. Monsignor Ratliffe (played by Brian Doyle-Murray) arrives at the orphanage to offer an important message, but the guys attack him, believing he was approaching the nuns. The Monsignor reveals that the orphanage should be closed unless they are able to raise \$830,000 in a month. The trio then volunteers to try to raise the money. Many of the nuns are certain that this will not be possible, since they do not know anyone outside the orphanage. Mother Superior, however, has faith. Three months later, the guys return to find a condemned and abandoned orphanage. As soon as they start crying, the children are heard swimming, laughing and playing. After the investigation, it turns out that an entirely new orphanage was built next door, with a luxury tennis court and Olympic swimming pool. One of the children believed to be terminally ill is in perfect health. His illness was due to an excess of iron in the water. Larry suspected it, but no one heard him. She and two other children who got lost - Weezer and Peezer should be adopted. It is soon reported that the funding was provided by Jersey Shore TV producers as an advance for a new reality show called Nuns vs. Nitwits starring the trio. The guys cause yet another unfortunate incident when Curly accidentally hits Sister Mary-Mengele in the pool with a diving board that has been folded. The trio quickly jumps onto trampolines and then on mules, riding into the sunset. The Three Stooges is a comedy film that was released in 2012 and has a running time of 1 hour and 32 min.
