In their recent Container Adoption in the Enterprise report, Forrester found that 86% of IT managers prioritize the increasing use of containers for developer agility and better collaboration between IT operations teams and developers. However, the report also states: Companies using container management platforms are fighting compliance (compliance with industry regulations and enforcement policies) and portability (construction and deployment [...]) by Jim Bugwadia November 02, 2020 Read more Every business is different and it is difficult to provide generic advice on calculating sustainable minimum capital. It's hard to get it right, but the goal is to get to a ballpark number that's close enough to handle and simple enough to iterate. Yash attempted to formalize this concept in a quick excerpt. by Yash Hemaraj, Partner, BGV Ventures March 27, 2019 Read more Early stage product development is difficult. Over the years, Alok Nandan (partner, Emergent Ventures and co-founder, Arka Venture Labs) has put together some techniques that have helped me navigate the infinite research space and reduce it to a towable space.
