Click that button and a window opens where you write the code in a box. Once you've written it, if the code is correct, you'll receive your reward in a short time. Zeus: god of heaven and thunder, he is king of the gods Artemis: goddess of hunting and the desert, daughter of Zeus Hades: god of the underworld, head of the dead, brother of Zeus and Poseidon Ares: god of war, son of Zeus, is incredible in battle and the most feared warriors Poseidon: god of the sea , storms and earthquakes , he is the brother of Zeus and Hades Choosing one of these five gods is free. Then you can unlock the rest. Each god has unique powers and as you progress in the game and level up, you unlock others you need to buy. In God Simulator 2 you will find the best pets because, unlike other games, they are unique: minotaurs, dolphins, Pegasus... as well as having cool animations, such as moving your wings or doing swimming moves. The goal of the game is to destroy everything in your path: cars, people, food, trees, animals, mills, etc. These actions fill a destruction bar that you exchange for coins. In the game there are secondary missions and other areas that require a certain amount of coins to be unlocked. The first is the residential area. It is a big city with gas stations, churches, buildings, fire station... And you know what's best? That you destroy everything! The rewards will be better, but it will take you longer to destroy unless you buy and improve your powers. Why play God Simulator?? God Simulator 2 is a brutal simulator. The mode of pharmony is different from other games of the same genre, and we love it very much! We love originality. In this game you can not expect to win money quickly. It takes longer, so focus on the phomics. All the powers, animations and effects give a very cool touch to the game. You can see they put a lot of effort into it. But most of all, we loved their originality. Great work from the developers. Not your typical Roblox with islands in the clouds and so on. From now on, you're obligated to play it. We know you'll enjoy it. If you do, come back and tell us in the comments what you thought.
