Our Students Excelled in External Art Activities

The artwork of our student Chui Xuan in Bedok was selected by her school to use as the cover for the School Dairy. It is an exceptional honour for a primary 2 student's work to be chosen for this. Congratulations Chui Xuan. Keep up the good work. Chui Xuan is also our young Artist for this month.

Several of our Bedok students also took part in an art competition organized by Fo Guang Shan. Clockwise from top left: Yu Xuan, Joey, Isabelle and Yu Jie and the artwork of Visagan. We are delighted at their ability to showcase their artistic talent to people not in the Global Art community. Good job.

For This Month, We Celebrated Easter with the Students

Easter is a Christian holiday that celebrates the resurrection of Jesus Christ from the dead. Traditionally, Easter is associated with various customs and symbols, including the Easter bunny, Easter eggs, and Easter parades. The Easter bunny is a symbol of fertility and new life, while Easter eggs represent the empty tomb of Jesus, from which he is said to have risen. In addition to its religious significance, Easter has also become a cultural holiday celebrated by people of various backgrounds around the world.

Singapore World Water Day Contest

In collaboration with PUB, Global Art Singapore organized the Singapore World Water Day 2024 Art Contest. Congratulations to Chui Xuan, Yu Xuan, Aerin, Chloe Tan, Shao Ying and Yanjun for winning.

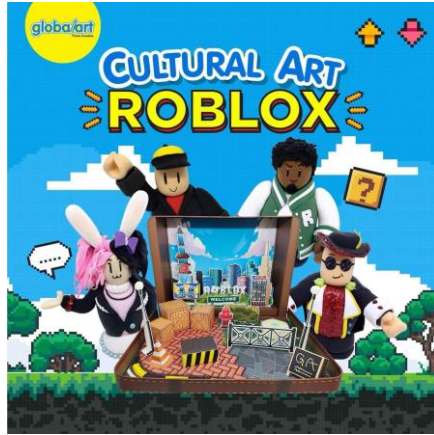

World Water Day is celebrated internationally on March 22nd each year. It's a day designated by the United Nations to highlight the importance of freshwater and advocate for the sustainable management of freshwater resources. In Singapore, World Water Day is significant due to the country's focus on water sustainability and management.

Through innovative water management strategies, Singapore has become a global leader in water sustainability. The country employs a combination of methods including desalination, water recycling (NEWater), and efficient water usage practices to ensure water security for its residents.

New Programmes

We introduced 2 new programs recently to give more choices to students. You may approach teachers for more details about these programs. These one-time workshop allows students to explore different types of art and craft.
