Congratulations to all the students who excelled in the 2024 April Global Art International Grading Examination.

The Grading Examination is a key tool for evaluating students' progress with us and provides parents with confidence in their child's artistic development.

Starting in 2024, in addition to receiving a certificate, each student will also be awarded a medal for their exceptional performance. This highlights the significance of the grading process as an integral part of Global Art's curriculum

Mid-Autumn Festival Crafts

In celebration of the Mid-Autumn Festival (中秋节), students enjoyed making traditional festival crafts. This festival, deeply rooted in Chinese culture, marks a time for family reunions and the appreciation of the harvest under the full moon. By engaging in craft-making, students not only embraced the festive spirit but also gained a deeper understanding of the rich cultural heritage behind this important celebration.
