This is a driver that will provide full functionality for your selected model. To use any computer device, software (driver) is required. It is recommended to use the original software that came with your computer's device. If you don't have the software, and you can't find it on the computer device manufacturer's website, then we'll help you. Tell us about the model of your printer, scanner, monitor or other computer device, as well as the operating system version (e.g. Windows 10, Windows 8, etc.). Find operating system information in Windows 10Des from the Apple menu in the corner of the screen, choose About this Mac. If you need to also know the coma number, click the version number to see it. Marc Bodewes In January 2003 I bought VueScan for my Epson Perfection 1200. I used it a lot, more functions than the standard driver. You have new computers with new operating systems, forgotten vueScan. I have a new Epson scanner - old has no Win10 drivers. VueScan recalled. I found it, downloaded the trial version, and my old EPSON 1200 scanner WORKED again. Surprise, a purchase made in 2003, works on a PC with an operating system that does not exist in 2003. 17 YEARS later! And that for a very small amount of money.
