Original (Page 1, Column 4, Row 5)Revival (Page 1, Column 9, Line 4)After Birth (Page 1, Column 19, Row 2) Treasure RoomChallenge RoomChallenge Mom's Bra is an activated item from both Isaac's Linking and Revival remake. It's a big women's white bra. The effects of the mom's bra from the original game. Using the item will cause Isaac to be treated with a bra on his head. Once activated, the image of the mom wearing this bra will flash over the screen. After that, all enemies as well as bosses in the room will be frozen for 5 seconds. Synergy Isaac with mom's bra from the original game. Contact damage on a player is disabled during an active effect, so items such as virus or orbital damage become more viable. Errors When the fistula (and probably Teratoma) is still frozen when it is usually split, once the effect is erased, smaller parts will soon be seen in the four corners of the room and then quickly move the distance they would take normally, often leading to the player taking damage. They can also get stuck in the rocks. Throwing a bomb in can cause a bomb to fly around the room and potentially crash the game when it explodes. When using Epic Fetus, Isaac's orientation restraint will freeze while mom's bra is active. If the enemy, who has the Eternal Fly circling over it (i.e.: hanger) dies during freezing, the Eternal Fly will survive after the effect is erased and will not become hostile. If used while Pip is in the air, he will constantly repeat his jumping animation without damaging being invincible. When used to kill the last stage of Satan, two legs will turn into the original statue of Satan and the boss battle will be unfinished. Isaac will also be registered as a permanently killed enemy. When using this element against Mask and Heart, the character can get stuck in the corner of the room and move on to the other three, while the player tries to move his character. This will wear off after a short delay. Seeds in the revival, the mother's bra can be found in the first treasure room using the following seed (s): In Afterbirth, a mother's bra can be found in the first treasure room using the following seed (s): Mom's contacts - collect mom's eye and any other mom item in the same run. Linking elements of Isaac Revival Activated Elements of Community Content is available under CC-BY-SA unless otherwise stated. From Isaac's Connection: Revival of The Wiki Description when used, petrified all enemies in the current room for about 4 seconds. Mass Fear Item ID 39 Icon Mom Bra Use Category DLC Required #39 (en) Active ElementMass ElementMass 3 roomsUpon use, it petrified all enemies in the current room for about 4 seconds. This item belongs to Yes Mother? Install. Collecting three items from this set will turn Isaac into his mother. Ok... Yes! Explanation: Ever thought: Is it a shame bra moms and pad have this kind of duration, they can be very usefull ...? Well me too, and this mod is here to change that! Changes: - Mom Pad and Bra now track, how big a room you use it in. Instead of 5 seconds, the effect will remain: - for 300 frames (I'm 10 seconds) in normal rooms and closets - for 400 frames (I'm 13 seconds) in 1x2 rooms - for 500 frames (17 seconds) in L-shaped rooms - for 600 frames (20 seconds) in 2x2 roomssoAl, this time I coded the Void Synergy in on release rather than putting it in a patch later... :D ADDED: - Car battery synergy: Effects are now twice as long - compatibility with True Co-op (and added desc for EID//Sounds good and all, but that doesn't make it OP vs. Bosses? // Actually, no! quote a line from The Binding Isaac Wiki: Bosses can boast of additional resistance to status effects. (That includes mini-bosses, by the way!) It basically causes the effect to be active for a maximum of 5 seconds against all the bosses, so it's still p useless against the end of the game enemies ... It took me 2 hours of debugging and one quick look at the article bosses on wiki to find out. (fun times!) I had the fact that the status effects on bosses are quite overpowered in the mind, so I wanted to prevent bosses from ever getting frozen or fearful, as a added balance change. But since it's apparently a thing, I just deleted this part because the effect is barely effective anyway. (I'm kind of sad about it as well though, wanted to exclude the mini-bosses from this, but whatever..) And speaking of Bosses: Mistakes: Because of the resistance against status effects a little broken, and the fact that I coded the kind of hacks, the freezing/fear effect can pop into a frame or two after you've used it on the boss and the resistance started to kick in. Maybe another patch that's in the future. It seems to work rightSo anyway, if you find any other errors or a better balancing idea, let me know below. And as always: have fun y'all!20/02/2018: - Some variables 04/07/2018 are localized: - Added compatibility with the true co-op and EID, also added synergy of the car battery Hello! I am IsaacDailyBot and I will post a different Renaissance element for discussion every day. Today's details BraFlavour Mom's text: 'Mass fear' When used, freezes all opponents now room temporarily. The Wiki't; Previous ThreadPost page has all the discussions, opinions and thoughts on this item in the comments below. After Reddiquette is highly recommended! Recommended! downvote what you disagree with - answer and explain why IsacDailyBot was created /u/elucidater.
