Charles Busch also wrote the original script and the script. [2] As the title suggests, Psycho Beach Party, set in 1962 Malibu Beach, is a parody of psychodramas from the 1950s, beach movies and 1980s movies. [2] Florence Forrest Plot (Lauren Ambrose) Gijet's hero[2] determined to learn to surf and earned the nickname Chicklet from surfers. However Chicklet began to show numerous personalities, experienced an unexplained eclipse, and feared that she might be the one who might be responsible for a series of mysterious murders in her beach town. The death is being investigated by Captain Monica Stark (Charles Bush), who also suspects Chilt's mother (Beth Broderick), Chilt's best friend (Danny Wheeler), surfing guru Big Kanaka (Thomas Gibson) and actress Bettina Barnes (Kimberly Davis). Other characters include university dropout (and Chilt's love interest) Starcat (Nicholas Brandon), alleged Swedish exchange student Lahr (Matt Keislar), surfers Yo-Yo (Nick Cornish) and Provlon (Andrew Levitas), Marvel's star-less girlfriend Ann (Amy Adams), and wheelchair class, queen bi Ronda (Kathleen Robertson), Castle Lauren Ambrose as Florence Forrest Thomas Gibson as Kanaka Nicholas Brandon as Kimberly Davis as Betina Barnes Matt Keislar as Lars Charles Bush as the captain. Monica Stark Beth Broderick as Ruth Forrest Danny Wheeler as Berdyn Nick Cornish as Yo-Yo Andrew Levitas as Prowlon Amy Adams as Marvel's Anne Kathleen Robertson as Rhonda Nicholas D'Agosto as the counter-banter playing and productions The game was originally titled Gidget Goes Psychotic, but the title was changed due to copyright concerns. In the original 1987 production, Charles Büsch played the role of Chicklet. [2] Deciding that he might not be believable in the role of a sixteen-year-old girl (while I can still rule, with the help of a sympathetic cameraman, playing a complex 25, 16 would be a stretch), added to the film Monica Stark's character. After more than 20 years, the play premiered at the Premiere of Tus Turtigo Theatre Productions in Manchester in March 2011. The production returned in August 2012 to Sasha's hotel ballroom. A production from November to December 2012 was held in the Australian Pavilion Hall; [4] Productions also took place in Melbourne (especially at the Midsumma Festival) in early 2013, generally receiving positive reviews. [5] As of July 2020[update], the film holds 55% approval of Rotten Tomatoes, based on 33 reviews with an average score of 5.55/10. [6] In a positive review, Stephen Holden of the New York Times stated that the film achieved what no stage of production could. By carefully copying the look and sound of these 1960s films - the carousels, the surf music and the style of the gay-fai game screen - this definitely skewers the false innocence of American pop culture on the eve of the countercultural flood. Most of the play's subversive joke has arrived on screen intact. [2] Critic Kevin Thomas compared the film to its unfavorable material, given that it should be twice as fun a game as it is as a movie; [7] He also explains that a conscious camp like this film presents a special challenge: it must generate and maintain a high level of energy or it will quickly pour. The latter is too common in this case. [7] Praising the film's strong women, Bob Graham of the San Francisco Chronicle also wrote that Bush (like Monica Stark) captured a woman's power in the world of the role of the stars he loved. It's not a camp. He's sincere. Graham, however, has made it clear that the film has rough edges, although he admits that they probably work in this masonry, cheeky picture advantage. He subsequently noted that In some cases it was difficult to say the really bad action of deliberately bad acting. [3] Dennis Lym of The Village Voice is negative, concluding that the film is an awkward combination of gooeys and muted humor, and that the viewer is left to ponder the number of levels at which this is a pointless exercise - a parody of parody films, a disintegration of transparent genres and self-denial, knowing the example of camp. [8] Soundtrack The original film soundtrack for Psycho Beach Party was released by Netwerk Records under the imprint of Unforscene Music on September 12, 2000. [13] Censorship The film lasted 95 minutes NTSC on the American DVD edition,[14] but the version, which was presented to the British Board of Film Classification (BBFC), lasted 85 minutes. He went uncut with a 15 rating. [15] suggests that he may have been pre-cut from the TLA exemption prior to submission. Similarly, the version presented by Magna Pacific to the Australian Office of Film and Literary Classification in 2001 runs for 84 minutes. The film has been rated M in Australia, indicating the film may not have been cut due to concerns about the material. References ^ Psycho Beach (2000). Mojo Box Office.
