Below are some questions of the practice review grouped by topic to help you prepare for your biology/habitat regents. The answers are bold to help make learning easier. If you are entangled in any of the materials contained in the files, be sure to consult with your teacher for clarification. Biology / Environment Theme Active and Passive Transport Aerobic Breath Biological Experiments Cell Organella Chromosomes and Darwin Genes (Natural Selection) DNA (Replication and Mutation) DNA (Structure) Endocrine System Energy Relationship Enzymes Evolution (Review) Evolution (Evidence) Evolution (various effects) Genetics of female reproduction system Genetics (mutations) Genetics (environmental causes) Homeostasis human exposure (environment) Niche Food Relationship Photosynthesis Protein Protein Synthesis Protein (RNA) Sex Relationship White Blood Cells January 2020 August 2019 June 2019 January 2019 August 2018 June 2018 January 2018 August 2017 June 2017 January 2017 August 2016 June 2016 January 2015 June 2015 January 2015 August 2014 January 2014 August 2013 June 2013 January 2015 2014 August 13 2012 June 2012 January 2012 August 2011 June 2011 January 2011 August 2010 Exam (331 KB) Scoring Key (240KB) Conversion Chart (29KB) June 2010 January 2010 Last updated : February 12, 2020 Great Species Group 4: Photosynthesis and Breathing Key Equations: Photosynthesis: Carbon Dioxide and Water - Glucose ---gt; Glucose and Oxygen: Glucose and Oxygen --gt; Carbon Dioxide and Water ATP Keywords: Reactants Products Organic Compound Photosynthesis Of Chemical Energy Atf Download Free PowerPoint View for PC Document File: You need a Microsoft Word program, a free Microsoft Word view, or a program that can import Word files to view that file. To learn more about the free Microsoft Word Viewer, visit the Microsoft Word website. Docx File: You need a Microsoft Word program, a Microsoft Word app, or a program that can import Word files to view that file. To learn more about the free Microsoft Word app, visit the Microsoft store. The questions on this quiz are based on information from biology: Photosynthesis. For webquest or practice, print a copy of this quiz on Biology: Photosynthesis webquest print page. About this quiz: All questions on this quiz are based on information that can be found on biology: Photosynthesis. Instructions: To take the quiz, click on the answer. The circle next to the answer will turn yellow. You can change your answer if you want. Once you've answered all the questions, click Made below the questions. Your will appear. The balls next to the correct answers turn green so you can see the right answers. Back to Science for Children Adaptation to Life Processes Active and Passive Transport, Aerobic Breathing, Autotrophs vs Heterotrophs, Aspens and Tropisms, Mechanical Chemical Digestion, Nerve Control, and Photosynthesis. Anatomy and Physiology Study of structure, relationship between parts of the body, function of body parts and the body as a whole. Bioma ecology, energy relations, human impact on the environment, niches, nutritional relationships and continuity. Darwin's theory of evolution and natural selection, evidence and variations caused by evolution, and the heterotroph hypothesis. Human blood physiology, types, genotypes, vessels, carbohydrates, digestive, endocrine, excretion, cardiac and blood circulation, immune system, nervous system, lungs and respiratory system, skeleton, muscles and cartilage. DNA genetics, nucleotides, replication, mutations, genes, chromosomes, genetic disorders, mutations, genetics technology, population genetics, pannet square, RNA and protein synthesis. Reproduction and development of reproduction, menstruation, fertilization, embryo development, prenatal development, gametogenesis, germination, reproductive systems, mitotic cell division, pollination, sexual relations, asexual reproduction. The structure of life Abiotic, biotic, cell organelles, cell theory, classification of life, enzymes, organic vs. inorganic, vital functions, breathing, transport and nutrition. Several biology themes of the game are created on a wide range of issues, including a few questions from several of the more. Other biological games (the theme is not present above) These are games that the teacher felt did not fit to any of the themes above. They may be from the field of biology not represented on this site. Habitat (Biology) High School Regents Exams - decide interactively, or view exams with answers.
