

A Note from Mendin' Fences Farm -

I have been very fortunate to have hosted Harry's clinics for over 15 years now. So many people come year after year (or as often as they can) to these clinics, and it has been a particular joy to watch as they have progressed over the years. Having everyone on-site for the clinic is not only great fun, but it provides so much continuity in the learning process.

On a personal note, once when I had my Arabian horse in one of his clinics, I came out of the arena and looked at him and said "thank you, Harry. I couldn't have done this without you". After a thoughtful pause, I amended it to "No, I wouldn't have done this without you". This, I think, is testimony to the support and opportunity he provides to help all those who really want to grow in their horsemanship.
