Unisex Accessible Toilet Size

Identified Design Issue

The unisex accessible toilet will not be upgraded to fully comply with AS 1428.1(2021).

Departure from Deemed-to-Satisfy Provisions

The existing accessible toilet meets the requirements of AS 1428.1 (2001). However, it will not be upgraded to meet the spatial requirements of AS 1428.1 (2009) due to the building's spatial limitations.

The Performance Solution

The design will comply with the minimum width required in AS 1428.1 (2001) due to challenges in modifying the existing accessible toilet layout to meet the circulation space in AS 1428.1 (2009).

This example is a hypothetical scenario and must not be used for any specific project.

Assessments must be tailored for each project.
