FEATURED SERIES

Three Weeks of Lunchtime Learning for School-Age Providers!

CONVERSATION: THE COMMON THREAD IN OUR WORK
This session is designed to provide teachers with strategies to simplify and integrate many of the demands of their curriculum by enhancing their use of rich, authentic conversation with children in all areas of the classroom.
*Bring Your Own Lunch!
Wed., Jan. 15 | 11 am-1 pm | Cabarrus
Harrisburg Presbyterian Church (fellowship hall)
4815 NC-49, Harrisburg, NC
$15 | 2 credit hours | Level: Entry

HOMELESSNESS IN AFTER SCHOOL CARE
Children do not ask to be homeless. They do not create this situation. They may live in cars, tents, unoccupied dwellings, or they may “double-up” with other families. They may have witnessed abuse or been abused, or may have been exposed to violence, theft, or death. Children in homelessness may need food, a warm place to sleep, a bath. Above all, they need someplace that provides stability and order in their life.
Your after-school program can provide some of that. Join us to learn about the federal act that helps homeless children and youth stay in school, learn potential warning signs of homelessness, and learn some strategies you can implement immediately in your before-/after-school program to help meet the needs of this population. *Bring Your Own Lunch!

BUILDING RELATIONSHIPS WITH CHILDREN AND YOUTH WHO CHALLENGE US
Have you ever been secretly pleased when one of the children in your group is absent? Some children are more difficult to work with than others. This program will help you to take an honest look at children and your feelings about them. Explore what professionals can do to build positive relationships with all children – even the ones who challenge us. *Bring Your Own Lunch!

A+ SUPERVISION
Did you know that with appropriate supervision, most accident and incidents that occur in child care programs can be avoided? In this online/On Demand session participants will learn to recognize common situations that pose risks to children, and will learn proactive measures to ensure safety in child care programs through appropriate supervision practices.

ARE YOUR CHILDREN IN TIMES SQUARE?
This module is designed to help participants understand the impact of sensory overload, especially with the element of light, and to offer strategies and ideas about moving children’s spaces from sensory overload to sensory engagement. Participants will learn the difference between lighting and illumination, conduct a lighting assessment of their classroom, and will learn how to enhance classroom mood by adding illumination to the environment.

BELONGING: INCLUDING CHILDREN OF GAY AND LESBIAN PARENTS (AND ALL CHILDREN!) IN YOUR PROGRAM
Today’s families are diverse. They come in all sizes and in many configurations. As early childhood educators, this diversity challenges us to be more accepting, responsive, and respectful in our relationships with young children and families. This module addresses how to create a sense of belonging for all families, including gay and lesbian families.

BREAST MILK: THE PERFECT BABY FOOD
With recent updated rules and regulations regarding breastfeeding in child care centers, educating ourselves about breastfeeding is crucial. This session will describe how the feeding of infants has changed over the past three generations, the impact that breastfeeding has on childhood obesity and other health concerns, and how child care centers can promote and support breastfeeding within the child care facility.

BULLYING: TODAY’S MEAN SCENE
This self-paced webinar will give child care professionals a baseline knowledge of the current types and trends in bullying. Red flags and warning signs that may put a child at risk for being bullied and best practices for prevention and intervention will be discussed.

CONVERSATION: THE COMMON THREAD IN OUR WORK
This session is designed to provide teachers with strategies to simplify and integrate many of the demands of their curricula by enhancing their use of rich, authentic conversation with children in all areas of the classroom.

EXPLORE! DISCOVER! INVESTIGATE!
Science in early care and education is focused on children’s natural interest in the world. Preschool children learn science concepts by active exploration of that world. Join us as we explore the components of nature/science for young children and the skills that children are developing when exploring science such as: observing, recording, problem solving and organizing information.

DEALING WITH SEPARATION ANXIETY
Even ET suffered from separation anxiety! Although well cared for by his new friends, he still longed for his home and more familiar surroundings. ET’s reaction is not unlike what child care providers see every day in their work with young children. Participants will learn practical ways to help children deal with separation anxiety. Great for new and seasoned teachers!

FATHERS AND FATHER FIGURES
Parents are children’s first and primary teachers. Every parent has a unique way of caring for and interacting with his or her child, with mothers and fathers typically interacting with their children in different ways. Research shows the impact of fathers and father figures on children’s social and emotional development. This is the topic of this self-paced session as we think about obstacles to father involvement and discuss ways to support and encourage father involvement.

GRANTING CHILDREN THEIR EMOTIONS
This session is designed to introduce teachers to the important idea of granting children their expressed emotions, explore strategies for increasing trust, and consider the effects and ethical issues of not taking children’s emotions seriously.

POTTY TIME: WHEN IS THE RIGHT TIME?
In this training session, participants will learn to look for the cues that signal toilet training readiness in toddlers. Learn what to do when toileting accidents occur and learn how to work with parents throughout the toilet training process.

PRIMARY CAREGIVING
The security of a child’s attachment to primary caregivers provides a base for the child’s emotional – social development. Learn the benefits of using primary caregiving techniques in the child care center and how to implement a primary caregiving system in your classroom.

PROFESSIONALISM: THE SECRET OF SUCCESS
This session will give practical ideas and strategies for building a professional image. It will focus on the fact that it is not only how you dress, but the attitude you display as well as the knowledge that you continue to gain that builds this image. It is designed to help participants realize that they are indeed professionals.

WE’RE ALL STRESSED HERE! HOW TO AVOID BURNOUT
Working with young children is rewarding, but it also has its own set of challenges. Participants will learn ways to manage stress and rediscover the joys of providing care and teaching young children.

WHO’S IN CHARGE HERE?

EFFECTIVE LEADERSHIP
Good leaders know how to motivate staff and impact the workplace. Participants will evaluate their own leadership styles and learn how to positively influence staff and provide a motivating work environment.
*For administrators and those in leadership positions only.

ZONING IN ON BEHAVIOR PREVENTION: IT’S ALL IN THE ATTITUDE!
If you have many children with challenging behaviors, chances are there is a problem with your program, not with the children. You will probably need to change aspects of your program – that is, the physical environment of the classroom; your schedule and curriculum; and your own attitudes, actions, and reactions.

These are prevention strategies (or indirect guidance), which are your most powerful tools for changing challenging behaviors and the focus of this session.

ALL ABOUT THE ITERS-R or ALL ABOUT THE ECERS-R
Through a series of 10- to 15-minute lessons, we’ll highlight each Subscale of the ITERS-R or the ECERS-R. You won’t be learning how to get through the actual day of assessment, but how to have a high quality classroom that is assessment-ready every day of the year! Along the way, we’ll provide application and encouragement to apply the standards you learn to your environment. These courses are mobile optimized, so feel free to take out your phone or tablet and move around your building or classroom as you learn.

SESSION DESCRIPTIONS

ADMINISTRATION

EMERGENCY PREPAREDNESS
Emergency preparedness is a vital component of quality early care and education. Every child deserves the safest environment possible to grow and thrive. This curriculum provides information, knowledge, and tools to prepare early educators for many types of emergencies. *This curriculum meets the state standards and requirements for Emergency Preparedness and Response. *This session is reserved for administrators ONLY, and class is limited to 12 participants. 
**Thu., Jan. 16 | 9:30 am-noon | Mecklenburg**
**Thu., March 5 | 1:30 pm | Union**
**$15 | 2.5 credit hours | Level: Entry**

HOW DO I STOP PUTTING OUT FIRES? LEADING WHEN NOBODY WILL FOLLOW (A PROACTIVE PROGRAM)
Do you wonder who is going to call in sick today? Are you going to have to juggle personnel around just to maintain coverage? Are you tired of constantly dealing with nagging issues in your daily operations? Then stop the cycle and learn how to communicate with your staff so you can get them on board. *This session is designed for directors/supervisors. 
**Wed., Feb. 12 | 6:30-8:30 pm | Rowan**
**$15 | 2 credit hours | Level: Intermediate**

SOLUTIONS TO THE DILEMMA
Suspension and expulsion from child care can have long-lasting negative effects on both children and families. It is the intent of NC DCDEE to severely limit the use of these exclusionary practices in early childhood education programs. This informational meeting will acquaint facility administrators/owners with NC’s new Suspension/Expulsion Policy and explore the importance of promoting healthy social-emotional development in preventing the challenging behaviors that often lead to suspension/expulsion. Also included are effective program policies and procedures that support the shift from exclusion to retention. 
**Wed., Feb. 26 | 6:30-8:30 pm | Mecklenburg**
**$15 | 2 credit hours | Level: Intermediate**

CHILD DEVELOPMENT

PCAN 2: BUILDING A HEALTHY BRAIN
Brain development begins at conception and continues across the life span. Module 2 of the Preventing Child Abuse and Neglect series will help participants learn about five important strategies that child care professionals can use to support and promote very young children’s healthy brain development. 
**Tue., Feb. 25 | 9:30-11:30 am | Mecklenburg**
**$15 | 2 credit hours | Level: Beginner**

PLEASE LET THEM PLAY
Playing isn’t just about having fun – it’s also about learning! Children learn best when they have the opportunity to explore, discover, and play. Join us as we take a comprehensive look at the cognitive, physical, and social-emotional value of play. 
**Mon., March 23 | 6:45-8:45 pm | Union**
**$15 | 2 credit hours | Level: Entry**

THAT TRUCK IS MINE!
Creating a strong community within a classroom helps children feel connected to their caregivers and peers. This session will emphasize the importance of developing a classroom community so that children experience an atmosphere in which they can thrive. This training will also explore the principles of child development and how adult emotions impact children’s behavior. 
**Wed., Jan. 15 | 6:30-8:30 pm | Mecklenburg**
**$15 | 2 credit hours | Level: Beginner**

PREVENTION STRATEGIES FOR ADDRESSING UNEQUIRABLE BEHAVIORS: DESIGNING A PRO-SOCIAL ATMOSPHERE
We all know that young children learn through play. However, did you know that part of play is introducing a healthy social and emotional learning environment so children can learn from you and each other through positive interactions, which means spending less time arguing and acting out? So, if there are fewer undesirable behaviors then there are fewer refereeing battles in the classroom, which simultaneously protects your “last nerve.” This session will provide you with knowledge for embracing a pro-social early childhood atmosphere that yields positive performance outcomes for children. *Must attend both sessions to get credit.
**Tue., March 17 & Thu., March 19 | 6:30-8:30 pm | Rowan**
**4 credit hours | Level: Beginner**

CURRICULUM

NORTH CAROLINA FOUNDATIONS FOR EARLY LEARNING AND DEVELOPMENT
This five-hour session will provide participants with an introduction to Foundations, North Carolina’s new early learning and development guidelines, how they are structured, and how to implement them in early childhood settings. Participants will construct the knowledge base necessary to use the standards in supporting children in their learning and development by embedding the standards in daily classroom planning and practice. *Participants must attend both sessions. 
**Mon., Feb. 3 & Mon., Feb. 17 | 6-8:30 pm | Union**
**Tue., March 31 & Thu., April 2 | 6:30-9 pm | Stanly**
**$25 | 5 credit hours 0.5 CEUs | Level: Entry**

STUDIES: LESSON PLANNING BASED ON A “PROJECT/STUDY” APPROACH
This session will investigate a “project/study” approach for planning in a preschool classroom. Participants will have the opportunity to explore the concept of lesson planning using a study approach; investigate how to integrate the content areas of literacy, math, science, social studies, the arts, and technology into a lesson plan; and how to develop a lesson plan based on the study approach. 
**Mon., Feb. 10 | 6:30-8:30 pm | Mecklenburg**
**$15 | 2 credit hours | Level: Intermediate**
HEALTH, SAFETY & NUTRITION

CPR/FIRST AID, ABOVE AND BEYOND
This training will go above and beyond regular CPR and First Aid. It is child-oriented, along with adult CPR. Participants will learn how to use a defibrillator and other lifesaving props. Participants will receive a Pediatric CPR and First Aid book along with handouts specific to your needs. After completing this session, participants should be able to demonstrate CPR and First Aid techniques for infants and adults. DCDEE-approved instructor. *Checks MUST be written out to the trainer: Tracy Webb-Goodman
Sat., Jan. 11 | 8:30 am-1:30 pm | Rowan
*CPR 8:30 am-noon/FA noon-1:30 pm

5 credit hours | Level: Beginner

CPR/FIRST AID CERTIFICATION
Cardiopulmonary resuscitation (CPR) certification is required for every family child care provider and recommended for most child care center staff. After completing this session, participants should be able to demonstrate age-appropriate CPR and first aid techniques for infants, children, and adults.
Sat., Jan. 4 | 8:30 am-4:30 pm | Mecklenburg
Sat., Feb. 1 | 8:30 am-4:30 pm | Mecklenburg
Sat., March 7 | 8:30 am-4:30 pm | Mecklenburg
$60 | 7 credit hours | Level: Entry

EMERGENCY PREPAREDNESS FOR STAFF
Participants will learn ways to inform and prepare their children about their program’s emergency plan and procedures, without scaring them. This hands-on workshop will teach participants how to make teacher-made emergency preparedness games and how to use the games throughout their curriculum to help their children better understand their program’s emergency plan and procedures in a way that even a real emergency might not seem as scary.

INFANT/TODDLER

EXPLORING SOCIAL AND EMOTIONAL DEVELOPMENT
Through supportive relationships, infants and toddlers develop a sense of trust, how to interact with others, and eventually how to express empathy. Strong, nurturing relationships are key to healthy development for infants and toddlers. This professional development event will explore social and emotional development within the context of relationships. Participants will learn how providing responsive care through the process of getting in tune will help infants and toddlers form secure relational attachments and develop a strong foundation for which they can explore their environment. This training provides information that supports the ITERS-R subscales: Listening and Talking and Interactions.

THE POWER OF POSITIVE RELATIONSHIPS
The Pyramid Model, developed by the Center on the Social-Emotional Foundations of Early Learning (CSEFEL), provides a framework for preschool teachers to support the social-emotional development of young children. In this module we’ll explore attitudes about challenging behaviors and the range of factors that influence a child’s behavior, define the relationship between social-emotional development and children’s behavior, and learn a framework to enhance social emotional competence and reduce challenging behaviors, and focus on positive relationships as the crucial foundation of children’s ability to learn. *Attendance in both sessions is required to receive credit.

PREVENTING POWER STRUGGLES WITH PRESCHOOLERS
We all want to be in control of our own lives. But young children usually have very few opportunities to make choices about what they do and when they do it. They’re told when to get up, what to wear, what to eat, when to eat it, where to go, and what to do when they get there. Introducing choice into a young child’s life can be a powerful tool to promote improved behavior in your classroom. Come learn the five steps to using the choice-making strategy and discover how easily you can embed choice-making opportunities into your classroom and short-circuit power struggles with your preschoolers.

PYRAMID MODEL SERIES FOR INFANT/TODDLER CLASSROOMS: RELATIONSHIPS ARE KEY
Yes, even infants and toddlers can have behaviors that challenge us. Did you know that understanding the Pyramid Model developed by the Center on the Social and Emotional Foundations for Early Learning (CSEFEL) can help? Infant and toddler teachers sometimes feel that ALL they do is wipe noses and change diapers. Every moment in an infant-toddler classroom (including wiping noses, changing diapers, and dealing with challenging behavior) is an opportunity to build the foundation of lifelong social emotional competence and reduce challenging behaviors. Relationships are key from the very beginning; one positive relationship can make a lifelong impact. In this module, participants will explore attitudes about challenging behavior, discuss how relationships build brain capacity, and identify strategies for developing positive relationships with babies and their families.

SELF-REGULATION STARTS WITH TEACHING CHILDREN BREATHING TECHNIQUES
Children need a teacher that role models social and emotional skills. In this training, teachers will learn positive guidance techniques with young children in a classroom. Participants will learn how children develop and the research that supports teaching young children social-emotional lessons. We will review the components of a self-regulating corner (aka cozy corner, safe place, etc.) and the materials that should be included. In this workshop participants will walk away with breathing techniques that can be used for calming down. Participants will engage in activities to produce materials to bring back to their own classroom.

STAYING ON TRACK
Why are daily classroom routines and schedules so important in the daily lives of teachers and young children? How does following a consistent daily schedule with embedded routines support the social and emotional development of the children in your class? What can we do to help children “stay on track” as they move through a typical preschool day? Through this training, you will receive answers to these questions and develop a deeper understanding of the role of schedules and routines in supporting healthy social-emotional development for all children.
