El Solucionario is a collection of answers and recommendations designed to facilitate the work with free textbooks in the 2013-2014 edition. Unlike books to RIEB, new textbooks are constantly evolving, so it's natural that we're still adapting to them. Therefore, we thought it appropriate to develop a tool that would allow you to consult with the answers, and the information that free textbooks require. In this digital edition for the third degree, we included answers to subjects: Spanish, mathematics, science, geography, history and civic-ethical training, since, on the one hand, we believe that the work of projects in Spanish, as well as some mathematical concepts, working with basic operations, and procedures in solving problems in mathematics represent a certain degree of difficulty. On the other hand, other issues pose important challenges in finding and managing information. It should be noted that some free textbooks have disappeared or are in a different order from the current Program, which is mandatory for the entire national education system from the 2012-2013 school year. These topics are properly defined in the Solution, so you visit them according to your discretion and the needs of your group. We invite you to familiarize yourself with the solution and look, in addition to the answers, for some brief explanations on how the student can achieve them. We are sure that this material will be very extinguished for you and look forward to always being able to get your feedback. Sincerely Montenegro Editors 4. 130 www.montenegroeditores.com.mxladasincosto0180027736 36 See... Clover, pear and heart are linked to the triangle refers to the box of apples it refers to (given that they are red apples in a box). The flower refers to, given that it lacks a petal, as the book appreciates the missing silhouette, which leads us to conclude that it originally had four petals. In the next... In the next... Represent in ... what product ...? Corn is the largest part of the area. Represent... is the part that is not sown.
