Dragon ball legendary powers 2

View Source Share This is a fan-made wiki about Creatryx's Roblox Dragon Ball Legendary Powers 2 game. Game link: controls Visit the controls page. Races Visit the racing page to see what race your character will be. Migatte no Gokui/Ultra Instinct Visit the Ultra Instinct page to see how to unlock and/or use this powerful form. Masters Visit the Masters page to see which teachers you can train with and what you get by doing so. Worlds Visit the Worlds page to find out where to go. Missions Visit the quests page to see how to progress in the game. Techniques Visit the techniques page to see how to get different techniques, their effects and which one you will use. Gamepasses Visit the gamepasses page to see which one you'll buy or what they're doing. Discord server Join my discord server to talk to me and the community of this wiki, and be able to be answered WAY faster. Probably. I guess. Note from If you want to add something on the page, ask me about the discord. Note 2: We don't just talk about the game there. We also sometimes play games like Dragon Ball Z Final Stand, and maybe other games. Note 3: There is no development of this game there (At least I don't know if there are any). Page List A list of all wiki pages, just in case you missed one. Latest activity Photos and videos are a great way to add images to your wiki. Add one down! The Dragon Ball Legendary Powers 2 logo on Roblox Community content is available on CC-BY-SA unless otherwise noted. The Saiyans are one of five playable races in the game. They have the lowest base, but the most shapes. Contents[show] Features They can't get a boost from Guru, and only a small boost from The Namek Dragon Balls, but they can get zenkai boosts, which consist of reducing their PS to about 15% (Red Health) and healing. This can fail if the PS is reduced by a NPC (for example, on a mission) or healing with a senzu, but for a probability of almost 100%, have a player hit you until your PS drops to 10% and then eats a buffet in the store. Note: Zenkai boosts can only be performed until the Saiyan has 3 million bases, making it a quick way to unlock the Super Saiyan. You can go to Mng(UI) and complete Mng(UI) Please note that to unlock forms it is necessary not to have attribution points applied and that BP. If you have any attribution point applied, you'll need up to 8% more BP to unlock that form, as that percentage is the additional amount you get when you apply the maximum amount of AP Forms. Key Unlock Requirements to Transform Mastery to Domination Super Saiyan Multiplier Features 3,000,000(3M) Z 1 50 Wastes until wasted. Ultra Super Saiyan 30,000,000(30M) X 1 80 It is slower than the rest of the shapes (including the base shape) so it is the possibility of the lowest enemies. It also makes the player a little bigger, just like SSJ Berskerker. Super Saiyan 2 80,000,000(80M) and Mastery 1 C 2 100 Waste ki until dominated. Super Saiyan 3 93,000,000(93M) and Mastery 2 V 3 400 Waste Ki, HP and Resistance until you master. After mastering it, you only waste ki but when it's 0 you don't go to base. Super Saiyan God Fighting With Beerus. G (With gamepass purchased) - 6,400 HP Recovers over time and loses nothing. Super Saiyan Blue ?? Rose completing Beerus' mission. B 4 320,000 Uses Resistance very quickly until it is mastered. Ui 210,000,000,000(210B) U - 15238095.2381 The player self-dodges attacks as if he were holding Q. Ui mastered Ui 210.000.000.000 (210B) U Full Spirit to transform 761904761.905 Check Ui page on how to get it and for a more detailed description. Punches and uses move on their own. Great fatigue and damage after it runs out. Gamepass forms Key Unlock Requirements to transform Mastery to master Oozaru Base Multiplier features - O - 10 Makes the player larger with Green Aura (Base) If SSJ Berserker gamepass is also owned, his multiplier will increase. False super saiyan 10,000(10K) H - 20 Similar to super Saiyan but much weaker and with another hair color. Super Saiyan Berserker Unlocked Regular Super Saiyan. L - 200 / 2000 (If Oozaru base gamepass is also property it also makes you bigger, does not reduce its speed and both spirit and ki constantly rise. Super Saiyan 4 10,000,000,000(10B) N - 4000 Changes your torso to super Saiyan 4 one, and changes your haircut as well. God Super Saiyan Using the super Saiyan god (in the search for Beerus) at least once. G - 6,400 Recovers HP over time and wastes nothing. Super Saiyan Rage 100,000,000+ (100M+) Y - 64,000 Looks similar to the normal Super Saiyan, but the aura is constantly on and has blue around it. Super saiyan Royal Blue Mastering super saiyan blue. A - 6,400,000 It has an aura, and a darker hair color than ssjb along with bubbles floating from your feet to the top of the aura. Master's Mastery Number Requirement (How to get it) 1 Stay for 10 minutes as a super saiyan inside HTC (Keep charging so you don't go base due to ki waste) 2 Stay 20 minutes as a super saiyan two inside HTC (Keep charging so you don't Goes base due to ki waste) 3 Stay 60 minutes (One hour) as a super saiyan three inside HTC (Keep charging so you don't go to base due to ki waste, and don't worry due to HP fatigue and waste. Fatigue stops at 50% and HP stops at 10%.) 4 Stay 90 minutes as a super saiyan blue when you have 105 B of base power. No need to go on because this form has no ki residue. Gallery All non-gamepass shapes Add a photo to this gallery Thanks to DaVector212 for its base images ssj rosé kaiokenx10 and Oozaru, Sanikthegreen for your fssj, ssj berserker, ssj4 and ssjbr images, and golden2134564312 for your fssj, ssj berserker, ssj4 and ssjbr images, and golden2134564312 for your image of pink. Trivia This is probably a copy of the trivia portion of Final Stand's lul pages Godly forms used to be a power plus of 600 bill+ its super saiyan power, and kaioken multiplied only its super saiyan power, but as the rest of the race power fully multiplied, this changed because namekians and humans could use kaioken and easily defeat a super saiyan blue. Unmastered shapes now have auras, exetized for the super Saiyan blue that always has an aura. The Super Saiyan God is a form of gamepass and a form of non-gamepass. I don't know what to wear anymore. I did this as a joke, but finished adding information that can actually be useful. BrolyDragon Ball characterBroly in its base form (left) and Super Saiyan Full Power Form (right) in Dragon Ball Super: Broly (2018)First appearanceDragon Ball Z: Broly - The Legendary Super Saiyan (1993) (original)Dragon Ball Super: Broly (Broly (3 2018) (reworked)Created byTakao Koyama (original)Akira Toriyama (reworked)Voiced byJapaneBin ShimadaEnglishVic Mignogna (Funi, 2003-2019)Johnny Yong Bosch (Funi, 2019-present)Doug Rand (AB Groupe)Information in the universeAliasThe legendary Super SaiyanSpeciesSaiyanFamilyParagus (father) Broly (ブ Buror is a fictional character in the Dragon Ball series. There are two versions of the character: the original Broly, a major villain who appeared in a trilogy of 90s anime films Dragon Ball Z, Broly – The Legendary Super Saiyan (1993), Broly – Second Coming (1994) and Bio-Broly (1994); along with a 2017 CGI animated film called Dragon Ball Z: The Real 4-D in Super Tenkaichi Budokai, followed by a new version of Toriyama that debuted in the film Dragon Ball Super: Broly (2018), and once again served as the main major antagonist and antihero in the film. Creation and Design Broly's character was created by Takao Koyama, who was inspired to create a menacing and powerful Saiyan villain after watching Future Trunks transform into his Super Saiyan Grade 3 form during the Cell Games anime arc, and designed by Dragon Ball creator Akira Toriyama. [1] Following the usual naming trend of the Saiyan breed, which is based on vegetables, Broly's name is a word game about broccoli, while his father Paragus is a word game about asparagus. A female Saiyan character named Kale is depicted as the original version of Broly's mirror equivalent, mainly due to its Berserk form, which closely resembles Broly's Legendary Super Saiyan Form. [2] She appears in Dragon Ball Super during the arc of Universe Survival Saga history. Powers and Abilities Like other Saiyans in the series, his heritage has given him beyond superhuman strength, durability, agility, speed and reflexes. [3] In daizenshuu 6: Movies & TV (1995), it is claimed that the power of Super Saiyan Broly surpasses that of Super Saiyan Goku and that in its legendary form Super Saiyan Broly is an opponent with Power. According to Takao Koyama in a 2006 interview, Broly is the strongest and most powerful antagonist in the Dragon Ball Z series.[4] In a 2013 interview about the film Dragon Ball Z: Battle of Gods, where Goku confronts the God of Destruction, Beerus, he stated that Broly is scarier than Beerus. [5] Dragon Ball Z appearances Debuting in Dragon Ball Z: Broly – Legendary Super Saiyan Paragus lures Vegeta, Goku and his companions to another planet, where Broly meets Goku and becomes enraged, destroying the mind control device and becoming the unstoppable Legendary Super Saiyan. Effortlessly hit Super Saiyan Goku, Vegeta, Gohan, Trunks and Piccolo before killing their father. Goku eventually defeats him, but Broly somehow manages to make his way into an escape pod. Returning in Dragon Ball Z: Broly – Second Coming, he crashes into Earth and freezes by a lake of water until the cries of Goku's son, Goten, awaken him. Broly fights a long battle against Goten, Trunks and a Super Saiyan 2 Gohan before a triple combined wave of Kamehameha from Goku, Gohan and Goten defeats him by shooting him through the sun. Dragon Ball Z: Bio-Broly, blood samples will make their way into the hands of an industrialist, who creates a clone of the original Broly. The clone eventually wakes up and mixes with bio-liquid, mutating into a creature knownオブ as Bio-Broly(Baio Buror. He fought Goten, Trunks, Android 18 and Krillin and is eventually defeated by a combined kamehameha attack after his body is exposed to seawater and petrified as a result. The ending was originally intended to create a fourth film with Broly, but was reworked in Dragon Ball Z: Fusion Reborn with Janemba as the main villain. [6] Dragon Ball Z: The Real 4-D at Super Tenkaichi Budokai Dragon Ball Z: The Real 4-D in Super Tenkaichi Budokaiコ (ザ ボ Doragon Báru Zetto Za Riaru Fá-D下 超-D atto Sápá Tenkaichi Bud-kai武道会, illuminated. Dragon Ball Z: The Real 4-D at the Super Number One Under Heaven Martial Arts Gathering) is a 4D interactive themed attraction at Universal Studios Japan, and the successor to Dragon Ball Z: The Real 4-D. The film begins as an OVA before moving on to CGI 3D models. The story takes place during a martial arts tournament, where the Legendary Super Saiyan (Broly) returns with a new form of God Broly. You can dominate a Blue Super Saiyan Goku and knock out a Super Saiyan Blue Vegeta. With the help of the public, Goku can make a unique fusion of God and destroys God Broly with his God Kamehameha. Dragon Ball Super: Broly A new version of Broly reworked in a quiet and slightly naive Saiyan with a penchant for exploiting in anger, debuts in the 2018 film Dragon Ball Super: Broly, which tells the story of Vegeta and y meet the exiled Saiyan for the first time. [8] Broly's rebooted story portrays him as an abnormally powerful Saiyan who is exiled to the vampa waste planet by King Vegeta out of fear and jealousy of his power. Broly is portrayed as a more sympathetic character. Apart from being reserved, it shows personality traits considered rare in Saiyans, such as compassion, valuing friendship, and not wanting to fight for her sake. Despite his innate kindness, Broly struggles to control his power every time he becomes angry, exercises, or provokes to some extent; when he loses control, Broly becomes a destructive and pointless berserker with little or no sanity that cannot distinguish a friend from the enemy. She is also emotionally scarred by her father Paragus disciplining him through a shock necklace, but Broly remains completely loyal to her father despite her abusive upbringing. Broly spends the next four decades living in exile with Paragus being raised as a weapon of vengeance against King Vegeta until they are rescued by Force Soldiers Frieza, Cheelai and Lemo, who quickly be friends with Broly. Recruited by Frieza and going to Earth, Paragus unleashes Broly on Vegeta for revenge. Broly adapts quickly and maintains his own against Vegeta and Goku, but gradually loses control of his mind and rage. Frieza then kills Paragus to provoke Broly into a powerful Legendary Super Saiyan. In this form, he defeats Goku and Vegeta in their Super Saiyan Blue forms, forcing them to retreat and merge into Gogeta, leaving Frieza at Broly's mercy for an hour. Ultimately, Gogeta easily defeats Broly, but Cheelai and Lemo manage to use the Dragon Balls to transport Broly back to Vampa before Gogeta can take him down. Cheelai and Lemo settle down with the reverse Broly, but are visited by Goku, who brings the group's supplies and offers to teach Broly to control his power, befriending him and unclogging a friendly rivalry between them. In other media Broly debuted in the video game Dragon Ball Z Super Butoden 2 (1993). [9] Since then, Broly has been frequently included in several Dragon Ball Z-related video games, along with other films and characters such as Bardock, Cooler and Omega Shenron. In Dragon Ball Z: Supersonic Warriors 2 (2005), Broly is the subject of three side stories: one that deals with what would have happened if Broly and Paragus managed to destroy the Z-Fighters; another, Broly being placed under the control of Dr. Gero; the third, Broly arriving during the Majin Buu Saga and joining With Mr. Satan. In Dragon Ball Z: Burst Limit (2008), he has his own entry into story mode alongside Bardock, which is a loose adaptation of his debut film. Both their incarnations as Super appear as playable characters through downloadable content in the video game Dragon Ball FighterZ (2018). Although Broly never appears in the original manga, it appears as a antagonist in the spin-off manga, Dragon Ball Heroes: Victory Mission (2012), written by Toyotaro in Weekly Shonen Jump and published by Shueisha, where he acts as Genome's henchman in Genome's plan to recover the Black Star Dragon Balls. His battle with Goku and Vegeta in Dragon Ball Super: Broly mocks a panel that follows the conclusion of the universal tournament arc for Dragon Ball Super. Voice Actors Broly Voice Actors Language Actor Notes Ref. Broly is considered one of the most popular villains within the Dragon Ball series, with a cult following. [6] In the character's popularity, Will Harrison of Polygon drew parallels between Broly and Boba Fett of Star Wars. Shawn Saris of IGN claims that one of the features that makes Broly memorable is its terrifying size as well as its brutal behavior during fights. [7] Saris ranked Broly 10th on the 2015 Top 13 Dragon Ball Z Characters list. [13] On a 2016 list of Dragon Ball Z's best fights,

the fight between Broly and Goku and others in the first film was classified as seventh; and the fight against Goten, Gohan and Goku in the second film, as sixth. [14] A female Saiyan character named Kale, who appears in Dragon Ball Super during the arc of Universe Survival Saga history, has received special attention due to his similarities to Broly. [16] Its Berserk shape resembles the original form of Broly Legendary Super Saiyan. [17] See also The Dragon Ball References Character List - DRAGON BALL全集 6: MOVIES & TV SPECIALS (in Japanese).
