The Sky's The Limit Consulting, Inc. Launches Self-Paced Online Learning Programs

Esterro, FL - Our first eLearning course - Harassment Prevention Training is being offered in two timely versions - one for all staff (one hour) and one for all supervisory staff (two hours). At the end of either version, each participant is awarded a certificate of completion.

As of January 2020, five US states (California, Connecticut, Maine, New York and Rhode Island) and the City of New York have already legislated mandatory workplace harassment prevention training. This must take place at least once every two years for employers in both public and private sectors. Employers who must comply will vary among the jurisdictions based on the number of employees and other factors. Traditionally, many employers regardless of legislation, have offered these types of training to bring awareness through continuing education. For more details, visit theskysthelimitconsulting.com/elearning.
