Related topics: Newsletter Promo Summary and excerpts from recent books, special offers, and more from the Harvard Business Press Review. With General Electric shares (NYSE:GE) trading around \$26, is GE OUTPERFORM, WAIT AND SEE, or STAY AWAY? Let's analyze the shares with the relevant sections of our investment structure CHEAT SHEET: T - Trends for a Stock's Movement General Electric is a diversified industrial, technological and financial company that operates around the world. The company's products and services range from aircraft engines, electricity generation, water and appliance processing to medical imaging, business and consumer financing, and industrial products. General Electric's segments include Energy Infrastructure, Aviation, Healthcare, Transportation, Home and Business Solutions and GE Capital. General Electric is a leading supplier of a wide range of products, many of which are essential in the daily lives of consumers and companies around the world. General Electric and Honda (NYSE: HMC) may be two of the most diversified transportation companies in the world, but their product lines are unlikely to overlap. So far, that is. After a decade in the making, GE and Honda spent the first flight of their first co-designed sleek new business jet on Tuesday. It's called and it represents the first foray of a Japanese company into the aviation business. For GE, this is another example of how A long-term look at the joint creation of what Honda calls the most advanced light aircraft in the world to date. Back in 2004, GE and Honda joined forces in a 50-50 split venture known as GE Honda Aero Engines to bring light, low-cost business jets to the market. They are installing a store near GE Aviation headquarters in Cincinnati to be next to the most important research taking place in advanced materials. Their goal was to jointly develop a next-generation engine that would be positioned above the wings of a small aircraft to reduce drag and noise in the cabin, as well as improve performance and fuel efficiency. This engine became known as the HF120, the smallest in the GE portfolio. Save time, make money! New Idea shares each week are less than the value of trading.
