

Dustin Craig, M.Ed., CP (Candidate)

Learning, Compliance & Data Systems Strategist | J.D. Candidate - CUNY School of Law (2030)

Strategist with fifteen years of experience building systems that connect learning, compliance, and data into clear, actionable frameworks. I translate complex policy and technical requirements into communication, training, and governance tools that support responsible decision-making. As Founder of Creative Visual Studio, I've led cross-sector initiatives in compliance education, transparency workflows, data documentation, content governance, and AI ethics and policy literacy. My work includes FOIL/FOIA processes, civic-readiness and legal education program design, and state-aligned measurement structures. I am completing the NALA Certified Paralegal credential and pursuing my J.D. to deepen my compliance and documentation expertise. My work focuses on building data-informed systems that strengthen institutional trust and accountability.

Professional Experience

2021 - present Founder & Principal Strategist

Creative Visual Studio LLC, New York, NY

- Develop FOIL/FOIA tracking systems, contract templates, and policy-training decks supporting audit readiness and transparency.
- Lead cross-sector projects in content strategy, data governance, and compliance communication for education, retail, and nonprofit clients.
- Build frameworks that turn complex policies and technical concepts into clear, audience-focused communication.
- Advise leadership on ethical AI, data privacy, and risk-mitigation communication aligned with regulatory and institutional standards.
- Partner with small businesses to align customer-data practices with disclosure and compliance standards.

2023 - present Social Studies & Law Teacher

NYC Department of Education, Brooklyn, NY

- Directed schoolwide civic readiness and legal studies initiatives, ensuring alignment with state governance and policy requirements.
- Chaired Civics for All committee; managed documentation for multi-year audit readiness and compliance.
- Designed policy-based curriculum integrating governance, law, and data-ethics.
- Maintained FERPA, IEP, and multilingual-learner documentation in accordance with state and federal compliance requirements.

2022 - present Instructor & Course Developer

Johns Hopkins University - Center for Talented Youth, New York, NY

- Design and teach interdisciplinary courses in International Politics, Global Systems, and Social Entrepreneurship.
- Created Social Entrepreneurship: From Idea to Innovation, integrating business ethics, legal frameworks, and civic innovation.
- Lead simulations on compliance, discrimination, and code-of-conduct governance.
- Collaborate with Carey Business School faculty to align curricula with governance, ethics, and sustainability standards.

2014 - 2020 Business Consultant & Digital Strategy Advisor

Pro Business Link, Remote

- Designed and maintained e-commerce and marketing sites for regulated industries, ensuring ADA, GDPR, and FTC compliance.
- Drafted and reviewed digital-service contracts and privacy-policy updates for client websites.
- Implemented analytics and SEO frameworks aligned with ethical marketing and data-collection standards.
