

The Offspring - Gotta Get Away

[Spicy Filters from BeWellPlayed.com](http://BeWellPlayed.com)

[Verse 1]

Getting edgy all the time
Someone around me just a step behind
It's kind of scary, the shape I'm in
Walls are shaking and they're closing in
Too fast or a bit too slow
Paranoid of people and it's starting to show
One guy that I can't shake
Over my shoulder is a big mistake

[Chorus]

Sitting on the bed
Or lying wide awake
There's demons in my **head**
And it's more than I can take
I think I'm on a roll
But I think it's kind of weak
Saying all I know is
I gotta get away from me

[Verse 2]

I tell you, something just ain't right
My **head** is on loose but my shoes are tight
Avoiding my friends 'cause they all bug
Life is like a riddle and I'm really stumped
If you reason, don't you know
Your own preoccupation is where you'll go
Being followed, I look around
It's only my shadow creeping on the ground

[Chorus]

Sitting on the bed
Or lying wide awake
There's demons in my **head**
And it's more than I can take
I think I'm on a roll
But I think it's kind of weak
Saying all I know is
I gotta get away from me
I gotta get away from me
I gotta get away from me

[Chorus]

Sitting on the bed

Or lying wide awake
There's demons in my head
And it's more than I can take
I think I'm on a roll
But I think it's kind of weak
Saying all I know is
I gotta get away from me

I gotta get away from me
I gotta get away from me
I gotta get away from me...
