Move aside
And let the man go through
Let the man go through
Move aside
And let the man go through
Let the man go through
Move aside
And let the man go through
Let the man go through
Move aside
And let the man go through
Let the man go through through

If I stole
Somebody else's wave
To fly up
If I rose up
With the avenue behind me

Some kind of verb
Some kind of moving thing
Something unseen
Some hand is motioning
To rise, to rise, to rise

[Chorus]

Too fat, fat you must cut lean
You got to take the elevator to the mezzanine
Chump, change, and it's on, super bon bon
Super bon bon, Super bon bon

[Chorus]

Too fat, fat you must cut lean
You got to take the elevator to the mezzanine
Chump, change, and it's on, super bon bon
Super bon bon, Super bon bon

And by
The phone
I live
In fear
Sheer Chance
Will draw
You in

To here

[Chorus]

Too fat, fat you must cut lean
You got to take the elevator to the mezzanine
Chump, change, and it's on, super bon bon
Super bon bon, Super bon bon

[Chorus]

Too fat, fat you must cut lean
You got to take the elevator to the mezzanine
Chump, change, and it's on, super bon bon
Super bon bon, Super bon bon

Super bon bon, super bon bon
Super bon bon, super bon bon
Super bon bon, super bon bon
Super bon bon bon bon

(Solo)

Move up
And let the man go
Let the man go
Move up

And let the man go
Let the man go
Move up
And let the man go
Let the man go
Move up
And let the man go
Let the man go through

Move aside
And let the man go through
Let the man go through
Move aside
And let the man go through
Let the man go through
Move aside
And let the man go through
Let the man go through
Move aside
And let the man go through
Let the man go through
