

Effective and accessible healthcare for every human

Open Position

China GM

Description

- Establish and lead a team in Mainland China focused on business development, clinical trial oversight, product localisation, and logistics
- Align China within MI's global commercial strategy

Cultural Commitments

- Passion for data-driven excellence
- Unshakable integrity and ability to articulate regular feedback
- Upholding a transparent idea meritocracy

Requirements

- Minimum four years experience in healthcare management within China
- Minimum one year experience with digital product, medical device development or sales
- Demonstration of adherence to relevant standard operating procedures
- Spoken and written fluency in English and working proficiency in Mandarin

Recommended Assets

- Scientific or technical training, especially within psychology, neuroscience or computer science
- Experience in sales, especially medical devices or digital health
- Experience working with an international team

Logistics

- Full time, starting 22Q1 or 22Q2
- Compensation relative to experience, with potential for options
- Invitation to work out of JLABS in Pudong, Shanghai

To apply

- Send letter of interest and CV by email to mi@mobiointeractive.com with the subject header "MI China GM 2022"
