Radio Spektrum™ iX12 is a 12-channel smart transmitter combined with a powerful mix of features and next-level connectivity. Innovative but conveniently familiar, RC pilots of all types of aircraft can use the iX12 to fly all in its class. TOUCH SCREEN with ANDROID-POWERED Literally touch on iX12 programming. Its 4-inch, full-color, easy-to-use monitor provides clear, clear details including state-of-the-art touchscreen technology to make navigation simple. And because the interface is a fully functional Android system with a dedicated quad-core processor, it will work with an ever-evolving list of apps from the Google Play store. Update alerts for the Spektrum AirWare app™ Touch are automatic, and you can download model configurations and add third-party apps. Listen to music on Spotify or Pandora directly from your radio or even update your Facebook status just before your flight. iX12 can be connected to almost any Bluetooth device. Use wireless headphones to listen to voice alerts privately, or a couple of speakers and listen to music. You can use a wide range of other designs, such as file sharing, photo sharing, and more. Connect to the flight control station and use apps to set up settings directly from iX12, without the need for a laptop. The built-in micro usb port allows you to charge the internal Li-Ion battery with a shared Micro USB cable and power. Other accessories can also be recognized, including your computer or laptop Veteran Spektrum users will feel at home the first time they pick up the iX12. This is due to the fact that the Spektrum AirWare™ Touch app is based on the famous Spektrum AirWare firmware used today. The large color touchscreen has an Android interface that simply makes navigating the menu and tweaking the model even easier than before. Go ahead with iX12 while exploring what a built-in auxiliary serial port has to offer. This is the next-level connection that allows you to customize the iX12 transmitter with a long-range RF (requires an adapter, SPMA3090), such as Team Black Sheep Crossfire protocol technology (sold separately), which provides low latency performance and frequency convenience. Control important information without looking away from what is flying. The iX12's programmable voice alert system may indicate that you have chosen or reported telemetry information on request. If the alarm goes off, you don't have to look at the screen to see what's going on. iX12 can tell you. Text to speech means you can create any voice alert by simply typing words you can even take. . WAV so you can have almost any sound imaginable. In addition to the built-in speaker, the iX12 has a headphone jack that allows you to monitor voice alerts and/or listen to your favorite song during flight, using headphones so as not to disturb other pilots. You can also use a Bluetooth booth to connect to wireless headphones or phone. Based on the recommendations of the pilots of the popular team and customer feedback, iX12 has been persistently designed to have the most optimized feeling possible. Weight distribution and iX12 ergonomics have been optimized to meet a wide range of pilot needs. The result is a sense of balance, comfort and functionality that perfectly complement the speed and accuracy of the DSMX®. ERGONOMIC iX12 KEY FEATURES: Convenient, Four-nosed non-slip rubber brackets Quadruple levers with front access settings Adjustable bar length and adjustable travel Per mode settings (1, 2, 3 or 4) User-adjusted switch jobs and the button-press button on/off The unique Bluetooth Spektrum wireless functionality gives iX12 users the ability to wirelessly connect to other Spektrum transmitters and specially equipped Spektrum P headsets. It's not a problem. Once you've connected to another transmitter or component, ModelMatch™ technology will reconnect the iX12 without having to reconnect. With WIRELESS TRAINER LINK, YOU can: Friends box wireless with another DSMX®/DSM2 transmitter® training someone fly Assign carb function on a second camera transmitter when flying the camera unmanned so you can focus on avoiding obstacles and maintaining eye contact while someone else aligns shot Lace with Spektrum FPV headphones, Specially equipped for wireless head tracking control and remote change video frequency camera Link to Spektrum Wireless Simulator Dongle (SPMWS1000) and practice flying with your favorite simulators Access to traction settings, ratchet and moving for each carb comfortably across the front; you don't need to disassemble it. There's nothing for that. Even The mode conversion is available. To create the perfect feeling, simply lift the rubber access cover and make a simple adjustment. Gimbal Hotspot: Travel limit up/down/right Gimbal Stick Tension Resistance up/down Trinquete up/down Up/Down Gimbal Stick Tension Gimbal centering screw The iX12 evolutionary radius works in large part like a smartphone. When it starts for the first time, you hardly ever turn it off, just sleep. Click the power button for easy-to-use options that allow the system to start instantly and present options that extend battery usage between charges. You have complete control when the RF system emits, when the Android system is active, when the screen is on. In addition, the Spektrum LED light always gives you a clear signal about suspension, transmission and charging. Spektrum™ iX12 is equipped with a leading memory model. Pilots can store 250 models directly on the radio, and even more on the SD card. The huge built-in memory capacity of the iX12 model means you can be sure that your entire fleet can be conveniently stored on one radio. And with the safety of the Spektrum Model Match Technology, there is no fear of accidentally piloting a model with the wrong configuration. Just choose the model you want to fly, turn on the plane and let your Spektrum iX12 do the rest. Not only is the iX12 the ultimate in management, it's the ultimate tool you can use to make sure your precious plane is in excellent condition. Built-in telemetry can give you real-time information about critical information such as battery voltage, signal quality, engine temperature and more about your model. Using a voice alert system, you can program iX12 to alert you when certain telemetry values reach or exceed the limits you define, you can also force it to trigger a sequence of on-demand telemetry values by simply clicking on the switch. iX12 can share model configurations with any Spektrum G2 transmitter from Spektrum AirWare. Transfer model configuration data from the old transmitter to the new iX12 or general model analysis to almost any other Spektrum G2 user. eBay Item Number: 283087558045 Seller takes full responsibility for this listing. Our consumer complaints email reads: info@rc-multistore.de N'mero de IVA: Remito facturas con el IVA desglosado aparte. Terminos y condiciones de la Venta GENERAL CONDITIONS Section 1 Sphere, Customer Information Following General Terms (GTC) regulate the contractual relationship between Michael Enz/ Michael Lucker GbR (www\_rc-multistore\_de) and consumers who buy our goods through eBay market. The language of the contract is German. 2 Purchase contract now (fixed price) (a) By placing the item in the Buy Buy offer format, we make a mandatory offer that you can purchase the item at the specified price. b) The purchase agreement is concluded at the click of the Buy Now button and confirm the process. (c) Offer Price option: Some offers may be marked by the Offer Price option. With this option, you can make an offer to buy a product at a certain price. The contract is when we accept your offer. If we offer you a counter offer, your offer will be rejected. In this case, the contract is made if you accept our counter offer. The bet and counter offer are mandatory and remain valid for 48 hours. The contract is when we agree on the price. d) For more information about the contract, please contact eBay Terms and Conditions that you have agreed to by registering on eBay. Section 3 Customer Information: Storage of the text of the contract Text of the contract with information about the article is not stored by us. However, you can view the information through your personal eBay access within 60 days of contracting. After that, you will no longer have access to the contract text via eBay. Section 4 Customer Information: Note to Fix Enter and/or the right amount first in the designated boxes, and then click on the appropriate button (e.g. Bid, Buy immediately or Check the price offer). A review page opens where you can check the information. You can fix

your input errors (for example, regarding the amount of bet or the amount you want), for example, access the previous page through the Back button of your internet browser. There you can correct your mistakes in boxes. If you want to completely cancel the ordering process, you can also simply close the browser window. Otherwise, after clicking on the confirmation button (e.g., Confirm the bet, buy or offer the price) your declaration becomes mandatory. Article 5 Statutory responsibility for defects for our goods, there are statutory liability rights for defects. Section 6 Limitation of Responsibility We exclude liability for minor negligent misconduct, provided that they do not relate to the principal contractual obligations, losses resulting from harm to life, body or health, guarantees or claims under the Product Liability Act (ProdHaftG). The same applies to misconduct by our deputy agents and our legal representatives. One of the main contractual obligations is, in particular, the obligation to transfer the goods to you and give you ownership of it. In addition, we must provide you with a question free of material and legal defects. Section 7 Consumer Information: Participation in dispute resolution proceedings We are required to participate in the dispute resolution procedure in the following consumer arbitration body: The General Office of Consumer Arbitration Center for Reconciliation, Strasbourg Street 8, 77694 Kel, www.verbraucher-schlichter.de WIDERRUFSBEL The right to withdraw from this contract within fourteen days without explanation. The withdrawal period is fourteen days from the day you or a third party named by you, who is not a carrier, has taken possession of the item. In order to exercise your right to withdraw funds, you must inform us (www\_rc-multistore\_de/Michael Entz Michael and Lucker GbR, SChwarzwaldstra'e 1, 77933 Lahr, info@rc-multistore.de, phone: 07821/380330) about your decision to withdraw from this contract via a clear statement (e.g. emailed, emailed). You can use the attached model output form, but this is optional. In order to meet the withdrawal deadline, it is sufficient to send a notice of the right to withdraw funds before the withdrawal period expires. Consequences of the recall, if you withdraw from this contract, you have for you to repay all payments received from you, including shipping costs (except for additional costs as a result of choosing the type of delivery other than the cheapest standard delivery offered by us), without undisclosed and no more than fourteen days from the day we receive notification of your cancellation of this contract. For this refund, we will use the same means of payment that you used for the original transaction, if you have not agreed to the contrary; under no circumstances will you be charged any fees for this repayment. We may refuse to return until we have received the item back or until you provide proof that you have returned the item, whichever you have done before. You must return or hand over the item to us immediately and in any case no later than fourteen days from the day you inform us of the cancellation of this contract. The deadline expires if you send an item before the fourteen-day deadline. You bear the direct cost of returning the goods. You only have to pay for any loss in the value of the goods if this loss in value is due to handling goods that are not necessary for checking the nature, characteristics and functioning of goods.
