

SINNOLABS' 12 MONTHS GROWTH ACCELERATION PROGRAM

Sinnolabs' growth acceleration program is a one-year program specifically designed to assist participating companies evaluate their opportunities in China, effectively enter the market and initiate business growth, while limiting the risks companies face when doing business in China.

The fundamental components of Sinnolabs' China Growth Acceleration Program are its mentorship system, the program's curriculum, the China network it gives access to, its time control function and reporting function. At the same time, companies selected to join the program will commit to dedicate enough resource to make the China project successful.

More information on the program can be provided by g.grollet@sinnolabs.com or on the website: www.sinnolabs.eu

Selected companies will in a first phase visit China during 1 week to join focused and effective activities including:

- China business crash course;
- Opportunity validation sessions with industry experts and mentors;
- Meeting with potential partners, government organizations.

Thank you for your interest in Sinnolabs, and we look forward receive your application form.
