9.1.6.1 and it is updated to the latest iLok version. I have tried all the solutions mentioned here and there. I have no problem viewing the project file in not viewable on the iPad. A: I had the same problem. I managed to get it working on the iPad by manually installing the iOS 3.0 SDK on my PC (To get the SDK to work on a Mac, it requires Xcode, and in order to get it installed, you'll need to do a full OS install on your Mac. It is very likely that iOS 3.0 is not supported by the ProTools native iPad SDK and that you will not be able to do this without a jailbroken iPad. See this thread: are entitled to a reasonably safe place to work. According to OSHA there are more than 1.3 million injuries and illnesses resulting from exposure to the effects of asbestos per year in the United States. Most of these injuries and illnesses are work-related. If you have been exposed to asbestos, it is highly likely that you or a family member has been exposed to asbestos in their own home. Asbestos is a known carcinogen, and can cause cancers of the lung and bronchus and is a leading cause of death from cancer. If you or a family member have a history of asbestos exposure, it is important that you have access to an experienced and qualified professional.
