Rate the game: Play similar hacked games: Earn to Die 2: Exodus Cheats: [1] - Fuel [2] - Boost [3] - Ammo [4] - Money Get On Top Cheats: Upcoming Games Animator VS Animation: SE Cheats: Money - you can buy some secrets This is an INCREDIBLY difficult to review. Part of it is because I'm being chased by the T-rex riding nuns right now (long story). Mostly it is, however, because of the mixed feelings I have for this book. I cracked this bad boy open and immediately fell in love. It was a different view of the zombie story. Which is rare. Located in a post-zombie-apocalyptic world, the threat has largely been contained – even commercialized – by the world's most successful business, Zombie, Inc. The tone of this is an incredibly difficult to review. Part of it is because I'm being chased by the T-rex riding nuns right now (long story). Mostly it is, however, because of the mixed feelings I have for this book. I cracked this bad boy open and immediately fell in love. It was a different view of the zombie story. Which is rare. Located in a post-zombie-apocalyptic world, the threat has largely been contained – even commercialized – by the world's most successful business venture, Zombie, Inc. The tone of the book was great. Each chapter begins with excerpts from the ZI employee manual, and they add a wonderfully satirical tone. The story itself follows the adventures of two ZI employees, Carl and his intern, Dill, as they go about the daily grind of dealing with zombie problems. It took a good fifty percent of the book for me to figure out what the story part of the story was, and I really don't care. The tone and installation was so amazing, I enjoyed the ride for the ride, and didn't care about the destination. Unfortunately, however, the destination, for me at least, was extremely deficient. The book was a five-star book until the last twenty percent or so. Great tone, incredibly inventive. Lots of opportunities for adventure and social commentary mixed with extraordinary aptitude. And then... Have you ever seen a relationship where a person just quit? Just threw up his or her hands and basically yelled, 'I don't love you anymore! and went out for no discernible reason? I almost feel that's what the author did here. There is no question in my mind she is incredibly talented. The set-up was all there. But where it had been a tightly crafted plot in a wonderfully realized world, the last fifty pages decentralized to what I perceived as a Hollywood shoot-'em-up. And don't get me wrong! I like those movies too! But this ending didn't belong with this book. This book deserved another two hundred pages, I thought. The finale could have been an apocalyptic showdown, but the way it all went down just seemed to come out of left field, for me it left me The characters were the ones I appreciated and enjoyed. But the way they were handled failed to resonate. That, again, turned from an incredibly inventive story to a color-by-number. And I was annoyed. Not because this writer is a bad writer, but because I thought she was a great writer. And in the end, I expected MUCH more. So a five-star book came down to three stars in the last quarter or so. Would I recommend it? I don't even know. I'm so conflicted. Great tone, great setup. Very funny, an inventive tag. And a story that fell apart. Sigh. Why can't life be easy? Nevertheless, I have to thank the author for the good stuff, and to show that there are different ways to do the same ol', the same ol'. .... more Random Game Click here to be taken to a randomly hacked game We may use cookies to help personalize your experience, including performing analytics and displaying ads.
