NEW SCHOOL FOR 250 CHILDREN

Building a future by giving in the present

2020 Fundraiser

We started with 32 children in our preschool in 2008. Currently, we have 113 children. Now we want to build a school for another 250 children. And we need your support.

BUILDING

The new school will have four classrooms, a staff room and a playing field for these students and students from the nearby school to play in.

The roof will be used as an entertainment area that can be used by the community.

It will be a happy, safe and wholesome environment in which the 250 students can obtain an education.

EDUCATION

Education and knowledge gives children the power to dream of a better future and the confidence needed to pursue a full education, which in turn will help generations to come.

The importance of education in developing countries cannot be overstated.

NUTRITION

Many of our children suffer severe malnourishment. This not only prevents body growth and prevents concentration in school.

School feeding has positive effects on all aspects of schooling – enrolment, attendance and performance. School meals encourage children to attend class and help them concentrate on their studies.

Over the first 7 months of this program the children increased their weight by approximately 2.4kg.
