py. Now lets you skip through menus with the Shift key. Removed resource manager. Now all files are managed with mod.py. ## Sorting Levels A word of thanks to Danho for adding this, I didn't get to it right away. ## Dev Log ## Version 2.0 - Updated To Mesa 12.1.5 - Added MCM Support - Added workaround for bug where you not getting messages about new .py - Now lets you skip through menus with the Shift key - Added basic level sorting (ignore first, advanced, level times, rpp times) - Updated all credits/copyright/sources - Can now open level.txt and level.py from within the mod - Level.txt file has been moved to my HG download. - Dev log will remain for awhile longer, but new versions will be very rare. ## Version 1.0 - First version. ## License Developed by [Jerk Dog]("Jerk Dog's blog") with the help of [jerkdog2013]("Jerk Dog's first thread") and [DCPC]("DCPC's thread") for the original idea. **Do not use this mod without the author's permission** This mod modifies the Textures.xml file which is a protected file and will be deleted upon the loss of the protected key. The author has no way of fixing it without re-releasing the mod. - - - **Author:** [Jerk Dog]("Jerk Dog's blog") [jerkdog2013]("Jerk Dog's first thread") **Contributors:** Danho, [DCPC]("DCPC's thread") **Released:** 9/30/2013 Let u(g) = 6*g - 5. Suppose 0 = -2*x 520fdb1ae7
