Voodoo13 is a blue collar, hard rock band from MS with ties to the blues, rock n roll, metal, and yes, even voodoo. The band formed in 1997 as Unglued. During that time the band saw a few good drummers come and go, but core members, Curt, Brad, and Chris, have always dredged though the difficult years. Now with the addition of drummer Dallas Spence (Lambotomy, 2 Ton Meatplow, and Cledus Snow), the band has reached a new level.

With the release of their brand new single/video for the song "Twisted Love", the band has shifted into another gear...and they are not looking back. Their latest EP has gotten air play across the US on FM and internet radio stations. The new single is projected to take off and get on rock charts spanning the globe.

2020 August 20, finds the release of the brand new single/video for "Twisted Love".

Some influences: LA Guns, Junkyard, Led Zeppelin, Aerosmith, Motorhead, Thin Lizzy, Guns N Roses, Neil Young, Skynard, and even some newer bands like Blacktop Mojo and Dirty Honey.... "Voodoo13 is a blue collar band with the dirt and grit under its nails to take them and their team to the top". (Blevins)
