## Junior scholastic checks and balances answers

FRAMERS USA CONSTITUTION provides a country in which no person or group can hold too much power. As a result, the Constitution established three branches of government: legislative, executive and judicial. Each branch is separated from each other and has its responsibilities. In addition, each branch can test the power of other branches. Despite its shortcomings, this system of checks and balances is considered to be one of the most effective management models in world history. Here's how each of the three industries works and how these three work together to govern our nation. A system of checks and balances. Try the Chrome extension that turns your new Tab screen into a flash card viewer! The idea behind Studylib Extension is that reviewing flash cards will be easier if we extend all flash cards that view to smaller sessions throughout the day. Find out more Framers of the U.S. Constitution realized that too much power can be dangerous. To prevent this from happening, the tiled Constitution creates three separate branches of the federal (national) government. The Constitution gives each branch its own power. This separation of powers creates a system of checks and balances. Each branch can check (limit) the strength of the other two. This helps to maintain a balance of power between the three. Explore the chart to see how it works and then answer questions. (ILLUSTRATED OMITTED) VOCABULARY - appropriate: postpone for specific use and impeachment: bring charges of unlawful conduct against a public official. Write the answers on a separate sheet Paper. 1.
