

# Aqua Pole

The latest in aqua fitness, the AcquaPole® sculpts through freeform acrobatic aerobic fitness.

Innovatively designed through research & development, the AcquaPole® provides a fun and unique solution for the following areas:

- Cardiovascular & Toning Exercise
- Posture Improvement
- Rehabilitation
- Choreographic Training

**PATENTED**  
Made in Italy

Extremely stable for use in deep water, the AcquaPole® includes more than 20 holds, each of which can be carried out with a wide range of exercises: Over 150 positions with the AcquaPole® are possible!

Certified AcquaPole® instructor training programs are also available to realize the full potential of this unique equipment.

## ADVANTAGES

- Attracts the attention of many client types across all ages groups, and helps to facilitate and increase customer base
- While other standard poles are 2 meters long, at 2.5m, the AcquaPole® is the only apparatus which can be used in water deeper than 2m
- Low initial investment and rapid payback
- Hassle-free assembly and disassembly and requires minimal space
- Its simplified structure requires nearly zero maintenance

## TECHNICAL INFO

- Height: 2.5m  
Space occupied: 1m  
Weight: 20kg
- Rust-proof marine steel AISI 316
- With a total weight under 20kg, the AcquaPole® is easily fitted in the swimming pool and maneuverable according to individual needs
