

# PERSPECTIVES ON DRUG USE

Room: **Breezaal**  
Time: **Tuesday 13:30 to 15:00**  
Chair: **Eric van Roon**  
Organizing FIGON-partner(s): **NVKF&B, KNMP, NVZA, CBG/RSNN & ZonMw**

In the 'Perspectives on drug use'- session three invited speakers highlight 3 different practical aspects of drug use. From a health care professional point of view Prof. Matthijsen will focus on the safety of drug use in the interaction of drugs with food. From the perspective of the health system in general Charlotte Becker PhD will focus on the sustainability of drug use with special attention for in hospital continuation of drugs from the home setting and re-use of drugs after first dispensing. As third speaker prof. Niels Chavannes will present options for e-health support from the perspective of the consumer/patient.

All in all, in this session we expect to offer a program that will address an present innovations and considerations with practical consequences for individual patient care that will be recognized by and useful for health care providers.
