Os dejo de partir nuevo!! Os ves a la ultima hora por aca!! muchas gracias por venir!! sabéis que dejaremos la puerta abierta para que sigan viniendo!! me gusta que sepan algo de todo esto porque se los estoy hablando años!!! muchas gracias!! saludos y un gran beso!!Q: How to make two images appear side-by-side in a flex display? I am having an issue displaying two images side-by-side. I can't seem to do it with the flex property, and would really like to do this with flex. I have tried many things, the best being: which has no effect. My CSS for the page is: .mydiv { display:flex; } .myfirstdiv width:50%; Thank you for the help! A: Just use: Flex would have aligned the images by default, but as per the default CSS value of margin: 0, it is mis-aligned. This is a nice image from w3schools.com This is the same image after aligning the div's default margin: 0, you will get perfect alignment. 520fdb1ae7
