SINTERED

STONE

EIGHT ADVANTAGES

Only the best raw materials, extracted locally or imported from Europe and other parts of the world, are chosen to join the productive cycle and be manufactured with avantgarde technologies to become jinqiang sintered stone .

OMNIPOTENT APPLICATION

Breaking the application boundary, Dongpeng has moved from decorative materials to applied materials, and the design, processing and application are more diverse and extensive to meet high-standard application needs.

FLEXIBLE CUSTOMIZATION

The texture of sintered stone is rich and varied, which can be customized according to the user's needs.

FOOD SAFETY

Can be in direct contact with food. Pure natural selection of materials. 100% recyclable, non-toxic and non-radioactive. Human sustainable development, health and environmental protection.

HIGH TEMPERATURE

Direct contact with high-temperature objects will not deform, and the A1-level fire-resistant slate will not produce any physical changes (shrinkage, cracking, discoloration) when encountering an open flame of 2000 ° C, nor will it emit any gas or odor.

ANTI-POLLUTION

One in ten thousand water penetration rate is a new indicator in the world of artificial building materials, Where stains cannot penetrate and at bacterial cannot grow.

SCRATCH RESISTANT

Mohs up to 5

EASY TO CLEAN

It only needs to be wiped with a damp towel to clean up, no special maintenance requirements, and the cleaning is simple and fast.

CORROSION RESISTANCE

Resistant to various chemicals, including solutions, disinfectants, etc.

UNLIMITED EXPANSION TO EVERY APPLICATION

Rich specifications, more beautiful designs, perfect interpretation
of the infinite possibility of beautiful vision.

Combined with advanced technology and refined aesthetic quality, it provides a full
solution for Pan home application and indoor and outdoor decoration

TECHNOLOGY

As a new material, sintered stone needs to be perforated on the surface of rock slab for household application. With the help of professional tools, large rock plate can be made out of square hole, round hole and any other hole. Let the physical properties of the rock slab far exceed its external properties.

Square hole of sink

Square hole of deck

Faucet round hole

Round hole of hearth

EDGES

jinjiang Sintered Stone has many specifications, thanks to the color matching of the thickness with the surface, can be processed on the sides in different ways in order to obtain several finishes.
