Edited cover pages for business documents, academic assignments, and books in the professional and academic fields, many projects require the creation of a cover art. Since this is the first thing the reader sees, the cover design should be professional and clearly convey that the content inside the o. Information and the elements you include will depend on the type of document being created and other features of the project. We have numerous cover templates available in a variety of formats, all of which can be customized to fit your needs. Cover pages, also commonly referred to as front pages, are used in a wide range of projects, including but not limited to: Business Plans/Offerings/Proposals/White Papers/Magazines/E-books/Album covers pages should not be confused with cover letters and cover sheets. The cover letter is usually presented along with a summary of applicants applying for a new position, while the cover letter is a document that you send along with a fax to provide additional information to the recipient. We have hundreds of free resume cover letter templates available here, and several fax cover templates are available here. The cover design of the page should attract the reader and give them a good reason to delve deeper into the document. It may include some or all of the following elements: Title Document / Subtitle Author's Name Cover Photo / Cover Image Completion / Date Document Presentation Description Style, layout and color spread should be easily blended in a way that accurately reflects the content inside, and according to any other specific requirements. In academia, following the rules is often as important as the content in the document. This means that you must have proper in the text quotes, quotes, references, etc. The most important thing is that the document should be presented in the proper format. The three most common formatting styles for academic work: the American Psychological Association (APA): Currently in the sixth edition, the APA format is commonly used in the field of social sciences. The APA cover should include a running title, name, author's name, name of the institution, and any notes of the author that you wish to include. Times New Roman is also recommended for font size 12. Modern Language Association (MLA): Currently, the eighth edition of the MLA format is commonly used in the arts and humanities. Although this format requires the creation of a cover, some instructors may still want it. If you're asked for a page title, don't forget to forget specific guidelines that you are given. Chicago Style Guide (CMS): Currently in its 16th edition, the CMS format is also commonly used in the arts and humanities. In this format, you may need to create a standalone front page, or you will be asked to include a headline on the first page of the text. As always, consult an instructor for additional formatting guidelines. For more detailed instructions on APA, MLA and CMS formatting and other free academic written resources, check out Purdue OWL (Online Writing Lab). In the corporate world, cover design depends to a large extent on the nature of the organization and the type of document you produce. Some covers must be formal and professional, while others may call for more creativity and flash. For example, technical reports that mostly show facts and figures tend to have more conservative covers, while business and marketing plans can be more colorful and use attractive images, making the reader feel good about the company. Your front page should identify with the brand, match the organization's mission, and follow all pre-set recommendations. First of all, be sure to create a design that will be enjoyable for your target audience. Whether you're creating a magazine, e-book or paperback book cover, a compelling design is essential to the success of the project. The cover is what sells the book, and if it doesn't immediately attract the attention of potential readers, many won't take the time to read the description and find out what the book is about. For this reason, the title should be large and easy to read and the graphics should be professionally designed in a way that allows the reader to connect emotionally with the subject. Also make sure that any graphic images are easy to view in the size of the sketch so that they can be visible to readers on all devices. We have an extensive cover gallery with numerous free design templates you can use. Our cover and header templates are word-based and can be edited using Microsoft Word, Open Office, or Mac Pages.
