But Almay has made it a reality thanks to its unique formula with Toon ID pigments complementing the unique tone of the complexion. The Smart Shade comes in three (3) universal shades: Light, Light Medium and Medium. It also has its anti-aging range, powder makeup and a concealer-reliever. Don't you know what your tone is? Do not worry! See what's closest to your skin and that's it! Because this literal base adapts to your tone. When I opened the Smart Shade for testing, it became strange to me to come out white, but as I faded it started to look like my own skin but improved. So with this makeup there's no loss, it's made to the tone of your skin, the real one, you don't see the mask effect at all. ☺ Another advantage of this base, is that it moisturized your skin, gives it brightness and it's dad because you achieve a very natural look, probably it's a makeup that simultaneously covers some skin care needs. Now I tell you what I noticed: I really liked the texture, it's light. The tone is PERFECT (believe me, I rarely said it) It has no flavor. It's hypoallergenic so we can all use it. It is white base with small colored dial. It has improved the benefits of a BB Cream but. I am fascinated by the sense of softness of my skin with this base. It provides moisturising, but doesn't make you shine too brightly. What do you think? I'm in love with ♥ the price is reasonable for all the good points of this wonder you can find in supermarkets (about \$230). I think it's an excellent choice, isn't it, girls? Comment on what you thought if you've already used it or want to try it ☺ Kiss hermos@s! ♥ Marly.
