Carshield claims reviews

Bought it for one of my cars that has been suffering for a while now, not a single regret. I had a recent long-haul trip with my 95 Corolla from New York to Texas. I've done the journey before, but with a rental, so I risk a lot to this older car this long. Sure enough, I finally got a flat tire along the way and instead of spending so much on a tower to the nearest repair shop, Carshield came in handy that day and I dragged my car and fixed everything in less than a day. I would recommend this service to anyone who is always on the road! Steven G. on I have a Ford truck that I love, with over 200K mileage, and plans to drive for upwards of half a million miles if it lasts so long. I first came across Carshield when I searched for extensive warrants. I was a little skeptical at first, but when I crunched the numbers, I realized that this service was worth it for me. Sure enough, within a year I had a big transfer problem, and not only was my recovery covered, but my tower and rental car were also taken care of. Without Carshield, I would have had to wipe out my savings, or worse, give up my truck. I can't recommend this service enough! Dave G. on I was so happy to have protection from CarShield. I didn't need to stress out about money when my AC stopped working, and the whole process was quick and easy. I honestly don't know what I would have done if I hadn't been covered. If you want to feel safe about your car, that's definitely the way to go. John S. on I signed up for the Power train plus coverage. My alternator stopped functioning a few months later. I gave the mechanic my CarShield information and they covered %100 of the expenses. Craig J. on I had an older car with tons of mileage, which I tried to hold on to for a while longer. This is my baby, and I'm still reluctant to let go. I found Carshield when I looked around for an extended warranty. I did some research on the service, and ultimately purchased a warranty for very little. It was really worth it to me considering the age of my vehicle. I had the guarantee for not even six months when the alternator blew on me. On the highway, no less. Carshield was a lifeguard. Without them, I wouldn't be able to afford the recovery. And, since I don't have a second vehicle now, I would have been in a trouble. Work is a half hour's drive! I can't thank them enough. They saved me! Amy F. on Carshield is the best service I could find for myself that was both affordable and reliable. My car broke down on the way home from work and I called them and they sorted everything out and took care of quickly and without make me feel like I'm the one who's something wrong like AAA in past to me. I have a guarantee that suits my needs and my budget and now I have I feels like I have to worry more about anything when driving out at night. Omni P. on I found myself stranded on the side of the interstate with a broken fan belt. I contacted Carshield and within 30 minutes they arrived. My car was towed to a repair shop and within an hour I was on my way home. I was so worried at first that I was stranded on the side of the road, but fortunately for me I had the service from Carshield to save my afternoon, and covered all the expenses I would have incurred because of my lack of roadside assistance coverage!! Frank T. on As a single mom, I have to ensure that with my budget I not only get the best service for my money, but a service I can trust and afford. Recently, I noticed that my car kept trying to pull to the left and that my brakes take longer and longer to hold on. Luckily, CarShield was able to take care of my issues (a bad rotor) and get me back on the road within a few days. They were friendly, professional and courteous. I absolutely recommend them! Cassandra F. on I used Carshield to correct my transfer that died just after the car's manufacturer's warranty expired. I'm so glad I got Carshield or else I would have been out of thousands of dollars! The process of serving was quickly easy with no problem. Ava D. on Get Quote For your vehicle affiliate disclosure: Automoblog and its partners can be compensated when you buy the products below. CarShield Extended Warranty ReviewIn its 15 years of business, CarShield has covered more than 1 million vehicles and paid out more than \$1 billion in claims. What makes CarShield such a popular supplier? We think that's because of the company's below-average pricing and flexible month-to-month plans. Six plans available, including those for high-tech features and specialty ATVsCovers some vehicles up to 200,000 milesOver 4-star ratings with thousands of customer reviews on Google and TrustpilotLow rating and warning of complaints from the Better Business Bureau (BBB)Not all contracts transmittedRental car compensation not always included Every new vehicle coming up with a factory warranty that covers crashes for at least the first few years of the But what happens when that coverage swatons up? A CarShield extended car warranty can give you peace of mind through your vehicle's golden years, when the most serious - and expensive - repairs are typically needed. CarShield offers drivers flexible plans and payment options, including month-to-month contracts, customizable payment plans, and a variety of deductibles. Therefore, in our review of the best extensive automotive guarantee companies, we awarded CarShield with the title Best Prizes. Below, we explain factors such as coverage options, costs, and customer reviews to help you determine if CarShield extended warranty guarantee can be a good choice for your vehicle. To see how much a CarShield plan will cost, get a free quote. Best Prices Get Quote (800) 563-2761 Our research has found that this supplier is most affordable. Plus, it offers monthly plans. CarShield Warranty Highlights CarShield was founded in 2005 and is based in Saint Peters, Missouri. The supplier is technically a vehicle service contract broker, meaning it offers protection plans administered by other companies, called mandatory. This setup gives drivers a wider range of coverage options and price points. If you have a CarShield vehicle service contract, cover repairs can be made at any dealer or ASE-certified® facility. This makes finding a suitable mechanic easy, which is important if you have a breakdown far from home. Emergency roadside assistance, rental car cover and courtesy till are also included in most warranty plans to help cover the costs of getting you to the nearest repair facility. CarShield contracts can be cancelled at any time. CarShield Extended Warranty Cover Review CarShield offers six different coverage plans: Plan Name Details Diamond Comparable to a New Car Manufacturer's Warranty, CarShield Diamond cover is an exclusion plan. This means all systems and components of your vehicle are included except for a short list of non-coated parts. Platinum Good for high-mileage vehicles or used cars, this plan covers certain parts of your vehicle's engine, transmission, cooling system, air conditioning, steering, brakes, electrical components, fuel pump, and more. CarShield Platinum is said-component coverage, meaning each specific covered part of these systems is listed in the vehicle service contract. Gold as CarShield's improved powertrain coverage, the Gold plan focuses on common powertrain components such as your engine, transmission, and drivetrain, but also includes parts such as the alternator, power window cars, and starter. Silver The Silver plan is CarShield's most basic (and most affordable) powertrain cover option. It covers only the most important parts of your vehicle, including your engine, transmission, water pump, and drive ale. Aluminum This plan covers most computer-related and electrical components, including power seat control, sensors, cruise control, electronic meters and LCD screens. Motorcycle & ATV If you have a motorcycle or all-terrain vehicle that needs cover, CarShield offers clear plans for each vehicle. Exclusions Even the most comprehensive extended car guarantees have their limits. CarShield plan exclusions are common under almost every extensive warranty supplier on the market. CarShield does not cover: Parts that change or change Drag-and-tear components such as brake pads and air filtersDamage that acts of nature, clash, vandalism, or lack of proper maintenanceRepairs that without pre-authorization from a CarShield claims representative Added Benefits With CarShield contracts, drivers also receive: 24-hour roadside assistanceCourtesy drags any time you break downRental car compensation (included in only a few plans) CarShield includes 24-hour roadside assistance in each of its vehicle service contracts. CarShield Reviews & Customer Complaints CarShield was featured on ESPN, CNN, HGTV and TBS, and has a number of known endorsements. In addition to that, it has received thousands of online customer reviews. The company currently has a 4.0-star rating on Google with over 4,000 reviews. It also received 4.1 stars on Trustpilot with more than 13,00 customer ratings. Despite these positive CarShield reviews, the Better Business Bureau (BBB) gives the company an F rating and points to a pattern of complaints relating to intrusive or misleading sales and advertising, problems canceling policy, and rude CarShield representatives. Some consumers even called the company a scam or rip-off. Another charge we've seen repeatedly was that CarShield denied claims for what customers thought was covered auto repairs. However, it is common among top extended warranty companies and can often be attributed to consumers who do not read vehicle service contracts thoroughly or do not understand contract terms before they are signed. There are over 700 CarShield customer reviews on BBB, with a 1.75-star rating. CarShield customer service responds to many comments, and about half of the complaints have been closed in the past year. Here's what a few customers had to say in CarShield reviews: I bought CarShield because of the wonderful commercial. On the phone, the salesman said that 'anything that isn't a carry item is covered, so no brake pads, no tires, etc...' It turns out that many things are not covered. There are 10 pages of fine print. - Marco Borrillo, Google We bought a car guarantee for our 2007 Impala. We were in California when the transfer went out. CarShield stepped in, approved the claim quickly and we were back on the road. Don't know what we would have done without them. Google Pays \$121 a month, and when my car broke down, they didn't pay a penny. - Lee, BBB CarShield Extended Warranty Cost The prices of an extended car guarantee can vary widely from vehicle to vehicle. Depending on factors such as: Your deductibleThe coverage plan you chooseYour vehicle's making and modelThe age and mileage of your car In our research , we found: A diamond plan for a late-2010s SUV with less than 50,000 miles costs between \$100 and \$130 a month with a \$100 deductible. Gold cover for a 2013 sedan with just under 100,000 miles will set you back \$130 a month with a \$100 deductible. A Platinum plan for a sedan a year older, but only 75,000 miles on the would cost the same. CarShield allows drivers to choose from a range of deductibles starting at \$0. The company also offers month-to-month contracts, so you don't have to worry about being locked into a long-term plan. Conclusion: Is CarShield worth the money? Our research into CarShield's coverage options, cost and customer service shows that CarShield can be a good choice to protect your vehicle in the long run, especially if you're on a tight budget. Although the company has received multiple complaints, CarShield reviews are predominantly positive, and the company has a good name in the industry. Considering that the company has covered more than one million vehicles in 15 years, several hundred negative comments hardly make a dent in the company's reputation. Overall, we think it's worth a quote from CarShield. Best Prices Get Quote (800) 563-2761 Our research has found that this supplier is most affordable. Plus, it offers monthly plans. It's always smart to shop around for extensive warranty coverage to make sure that you get the best deal for the coverage you need. We recommend taking a look at the top extended car warranty companies and compare quotes from CarShield to other industry-leading suppliers, such as Endurance and CARCHEX. We compared CarShield to these two suppliers head-to-head: head-on:
