Passionate Colleagues - Work with passionate hard working colleagues who will push the boundaries and only deliver the best

In Their Own Words

“I have been working in Wysa for more than 3 years, and it has been an amazing journey! I had the chance to work with several teams together to build cool features on our iOS platform which has been very informative and fun. Through Wysa I've had the chance to be part of several events organised by Apple and even work on cool features like Siri Shortcuts right after the beta was launched. I love working on the product directly and being able to suggest new features that will make an impact to the company. I joined this company with very little product skills, but Wysa has helped me learn so much in product development that now if I ever want to start a product of my own, I'm confident that I can do it.”

- Ebinson Aruldas, iOS App Lead

Buzzwords
