

Belgium – Road network for the exceptional transport

Dear customer,

As is well-known, the Ministry of Transport in Belgium defines the road network for the exceptional transport. Unfortunately it's difficult to find a route to the delivery address or border, in this listing. Therefore we now let produce road maps with the different routes.

These are available in 2 different versions:

- Network 90to / 120to
- Network Crane / Motorways

The price is 40 € per map, for orders over 5 maps 30 €/piece.

If you are interested or for further information don't hesitate to contact us.

With our best regards,
