The project was started in 2007 by an independent developer and it has the support of the Bombardier ® (Airbus Group) Aircraft Division and Air New Zealand. It is a modification of the existing Plane Maker ® project. The project is being developed under the open source GNU GPL license. MJC8 Q400 Category:Aircraft instruments Category:Computer-aided design Category:Computer-aided design software for Linux Category:Windows softwareQ: ORA-01792: timezone information is not present in system tables I'm getting the ORA-01792 error message in 11.2.0.3 and higher after I make the following modification to the tz\_abbr.locale file: US\_EDT=America/New\_York I modified the file using SYSADM.ORA I tried to resolve it with: ALTER SESSION SET time\_zone = 'America/New\_York'; When I check with: select table\_name from all\_tab\_cols where column\_name = 'TZ\_ABBR\_NAME'; I get ORA-01792 select user from v\$session\_info; I get: USERNAME 520fdb1ae7
