Candidates are selected on the basis of the online written exam/exam and the interview. The online/written test Bihar STET will be conducted in English or state languages. Written Review Personal Review Practice Test Interview Preparation Tips - Self Mock Review Candidates Who Should Perform the Paper Pen Test by themselves to find errors and questionable questions. find the answers to these questions to be aware of prior to conducting the review. It is one of the revisions of all programs while solving documents do not use the solution and correct negative and positive grades. Through the simulated test, candidates can use model documents from the previous year, sample samples from the Institute, and sound practice documents to conduct the self-examination. Program Reference Each candidate must complete all chapters prescribed by the exam organizer prior to the exam to avoid confusion time to receive questions. Most candidates do not complete the program and find unknown questions to take as out of the game at the time of the exam. Thus, candidates who are advised to avoid confusion and complete the preparation before the exam date. First, candidates who passed the exam authority prescribed program and exam model for comfortable in preparation. Each candidate has many types to select interesting chapters to initiate the preparation. Do not start with new topics At the time of the exam, students who should attend all the questions studied and complete the known answers. Avoid starting with new topics, as it will be lost the duration of the exam and one of the disappointed from first. In all topics, faq questions are listed in most guide candidates can easily rate these questions for more reference. Time Consumption Time is one of the most important for each examiner at the start of the exam. Candidates who know the answers to all questions, but less time, unsupervisedly answer the questions, well, candidates who are advised to get more practice by performing the self-test and set the time for each question to save the waste of time and use to increase the level of attending question. Other Things Preparation is one of the main activities for each exam to get qualified declared by the review authority, where there are many styles of preparation is used for each candidate. Depending on the prescribed program and exam model, the preparation is modified. We have given some of the steps of the article below, candidates can use these details and get benefits from us. Try to avoid errors because every incorrect question has negative points is evaluated and less from the total marks. Errors are the main reason for disqualified for eligible for the additional level exam, candidates are trying to reduce errors in all sections such as mathematics, physics, chemistry subject formulas and equations. candidates try to ignore the correction by assessing the response sheet staff. Day before an exam The exam will be held soon, all candidates will travel to the date of the exam. Thus, candidates are free, less tension and get more fake tests themselves. Before one day of the exam, students who take a good sleep to ask for a strong contribution for tomorrow's exam. At least 6 hours should sleep before attending the exam, which will increase positive thoughts, accuracy of responses speed to attend the exam.
