Picture: United Artists The Western genre helped drive many great actors to superstardom when they wore these hats and boots, then their horses rode towards the sunset until their director screamed Cut! Do you remember these celebrities? Since the Western film genre is as old as Hollywood filmmaking itself, many actors of the Silent Film Era appeared in Western at that time. Film historians identify William S. Hart as the first Western film hero to impersonate what we know today about typical Western film protagonists: a man of integrity who fights when needed and is honorable in his intentions and deeds. His silent film Tumbleweeds from 1925 began it all and paved the way for future Western film heroes to develop and develop from this character archetype. As the Western film genre flourished, so did the diversity of Western film heroes. The concept of the antihero arose, with Outlaws became the main protagonists of Western films. They may not have the honor and integrity of the typical Western hero, but these characters gave the Western character a more nuanced context. They now appeared more human and less than a perfect hero. They were also associated with the audience. So far, the Western is still being revised and reformed as a genre. But the big stars still want to stare in them, as they see it as a good opportunity to contribute to the Western genre. So can you name the movies in which these actors played cowboys, outlaws or western interlues? Continue and take the quiz, pardner! Every February, the national football league's best team is crowned Super Bowl champion. In college football, voters restrict the best athlete each year and present him with the Heisman Trophy. The reward for a successful music career could come in the form of a Lifetime Achievement Award as one of the best. Household items, cars and restaurants also create best-of-lists and are awarded for their effectiveness, gas kilometers or award-winning hamburgers. So it's obvious that movies have their own rating system to determine which movie was the best for a given calendar year. The process of selecting an Oscar-winning Best Picture involves a complicated rating system in which about 6,200 eligible voters rate films based on what they call the preference system. For example, instead of selecting a favorite, eight movies are rated the least by the most preferred ones. Luckily, we didn't have to pick any winners or favorites here. These are all straight-line Best Picture winners from 1928. But we have a job to do for you. See how many of these top Hollywood hits you can guess from the clues given. Madonna's Vogue and MC Hammers You Can't Touch This topped the Billboard charts, while the eye-catching fashion trends of the 80s made way for more muted staples such as black leggings and crop tops. It was also the year hollywood heartbreaker Tom Cruise married a little-known actress named Nicole Kidman. Yes, all these things happened 30 years ago. It's hard to believe! It was also a banner year in cinemas, with well-known hits such as Ghost, Home Alone and Pretty Woman making their debuts. The sci-fi film Total Recall became one of the first to use a groundbreaking special effects technique called CGI, while Kevin Costner's epic Western Dances With Wolves brought in more than 424 million US dollars worldwide. It was also a year in which a number of sequels such as Young Guns II and Another 48 Hrs appeared on Look Who's Talking Now and Three Men and a Little Lady. How well do you remember the 1990 films?
