

Need Wi-Fi?

Follow these 5 steps

1. Open your Wi-Fi settings

Go to Wi-Fi/network settings on your device.

2. Connect to

Wifinity Onboarding

3. Sign up

When the webpage opens, select Sign Up and create your account.

Please note: *If you previously had an Optify account, you will still need to register again.*

4. Click “Go Online”

Once your account is created, select Go Online.

If the page does not update after 1 minute, refresh it.

5. Join your main Wi-Fi

Copy your network passkey, then return to Wi-Fi settings and connect to:

Wifinity Home Network

Paste in your passkey to finish setup.

You're all set

P.S you can use this code for your other devices too.
